Answers are the best-supported answers, not exam keys.

[C]-HEAVY PAPER — thin verified pool. 65 of the 100 questions below are syllabus anchors on this post's recurring topics, because the verified archive for this post holds only 73 items. Those questions are flagged [C] on every one of them: they are predictions about the syllabus, not verified facts. Study the topic, not just the answer.

> **How to use this paper:** study the basis under each question, not just the answer — the real paper will ask the same topics in different words. Revise the underlying topic, not only the four options. Do not quote any item as "asked in the 2027 exam" — nothing here has been asked yet.
