GUESS PAPER — predicted questions for the next FPSC Inspector, Airport Security Force (BS-16) sitting, 2027, NOT a past paper. Every question below is a prediction: it is here because the same question, the same fact, or the same topic appeared in verified FPSC past papers for this post. **No pass guarantee.** A guess paper raises the odds; it does not promise a result. Answers are the best-supported answers, not exam keys.
Flag — batch papers: all four May 2025 batches share the same syllabus and the same heavy weights (Mathematics and Current Affairs together are ~39% of every batch). A 2027 batch may shuffle the same topics across batches, so revise the topics, not the batch order.

> **How to use this paper:** study the basis under each question, not just the answer — the real paper will ask the same topics in different words. Revise the underlying topic, not only the four options. Do not quote any item as "asked in the 2027 exam" — nothing here has been asked yet.
