FPSC Assistant Director (Investigation), FIA — 2022 · Solved Past Paper

Body: Federal Public Service Commission (FPSC) · **Post:** Assistant Director (Investigation), FIA, Batch 01 · **Held:** 24 July 2022 · **Questions:** 100 in the original paper — **100 solved and verified** · **Price:** Free

> **How to use this paper:** each question shows the stem, the four options, and the correct answer. Click “Why each option?” under a question to see all four options explained — one question teaches four topics. General Knowledge answers are as of the 2022 sitting.

Source note: Fold Pass 2, 8 Nov 2026, decided by assistant under the owner's 8 Nov delegation (15:40) + new verification standard (15:44, one confirming source is final): Q54 VERIFIED (C) 10 under the clean reading $27/3^2 + 4{\cdot}2 - 1$ (Testpoint clean typesetting + worked steps, re-fetched 8 Nov 2026; McqsPlanet keys C 10; the garble is disclosed on the question); Q62 VERIFIED (C) 0.75 as the intended answer (90/120 = 0.75 = 75%; Scribd 660658441 keys 0.75, Scribd 634882587 keys 75%; the decimal-printing caveat is disclosed on the question); Q88 VERIFIED (D) All of these (facsimile read of the printed booklet reports booklet Q89 (D) 'All of these'; six witnesses agree; the Act derivation — no provision names any of the three forces — was re-checked 8 Nov 2026; the primary's 'None of these' variant is recorded on the question); Q98 VERIFIED (C) both A and B (FIA Act s. 5(4) re-fetched verbatim 8 Nov 2026 from two Act texts); G9 RECOVERED as Q100 (VERIFIED, 'Synonym of Emancipate?', answer (C) Release — McqsPlanet Batch-1 lists 20 English items where the file had 19, Emancipate the only unmatched stem; Scribd 634882587 prints the same stem and options; Scribd 660658441 keys Release; its exact position within booklet English Q1–Q20 is unknown, so it is filed as Q100 — a filing number, not booklet Q100, which is file Q99). Booklet numbers run one ahead of file numbers from file Q20 on (file Q61 = booklet Q62, file Q87 = booklet Q88, file Q99 =

0). The paper date 24 July 2022 is stated on the source reproduction and on the printed booklet (dated 24-07-22).

Question 1 English

He pleads for sanity in a _____ world:

- A. Reasonable
- B. Lunatic ✓ **Correct answer**
- C. Cautious
- D. None of these

A. WRONG: a "reasonable world" is one that already behaves sensibly; nobody needs to plead for sanity in it. The sentence sets up a contrast — sanity pleaded for because the world lacks it.

B. CORRECT: "a lunatic world" is the natural collocation — a mad, insane world is exactly where someone pleads for sanity. The two words balance each other.

C. WRONG: "cautious" means careful and wary. A cautious world is not the opposite of sanity, and "pleads for sanity in a cautious world" makes no sense.

D. WRONG: option (B) fits, so "none of these" cannot be right.

Question 2 English

ARGOSY means:

- A. Arrogant
- B. A big trading ship ✓ **Correct answer**
- C. Misguiding
- D. None of these

A. WRONG: "arrogant" means proud and looking down on others. It only resembles "argosy" in sound; the meanings are unrelated.

an argosy is a large merchant ship, and by extension a rich cargo. The word comes from "Ragusa" (Dubrovnik), whose trading ships were famous.

C. WRONG: "misguiding" means leading in the wrong direction. Nothing in the word "argosy" carries that sense.

D. WRONG: option (B) is the dictionary meaning, so "none of these" cannot be right.

Question 3 English

Synonyms of Trepidation:

- A. Fear ✓ **Correct answer**
- B. Expedition
- C. Trail
- D. None of these

A. CORRECT: "trepidation" means fear, trembling and nervousness before something unknown. Fear is its plain synonym.

B. WRONG: an expedition is a journey or organised trip for a purpose. It has nothing to do with fear.

C. WRONG: a trail is a path or track, or the act of following one. It is not a feeling.

D. WRONG: option (A) is the synonym, so "none of these" cannot be right.

Question 4 English

Synonyms of Hortatory:

- A. Academic
- B. Art of Gardening
- C. Trying to develop a love for history
- D. None of these ✓ **Correct answer**

academic" means scholarly, connected with study and learning. "Hortatory" is about urging and encouraging, not about scholarship.

B. WRONG: this is the trap. Gardening is "horticulture", from Latin "hortus" (garden). "Hortatory" comes from a different root, "hortari" (to urge, exhort). The two words sound alike and mean wholly different things.

C. WRONG: this describes one possible effect of encouragement, but it is not the meaning of the word. "Hortatory" means tending to exhort — urging someone to do something — whatever the subject.

D. CORRECT: "hortatory" means encouraging, exhorting, urging. None of the three options states that meaning, so "none of these" is the answer.

Question 5 English

Antonyms of QUOYIDIAN:

- A. Extraordinary ✓ **Correct answer**
- B. Wishful
- C. Premature
- D. None of these

A. CORRECT: "quotidian" means ordinary and everyday. Its opposite is "extraordinary" — out of the ordinary, remarkable.

B. WRONG: "wishful" means full of wishes, hoping for something. It is not the opposite of everyday.

C. WRONG: "premature" means happening too early. It concerns timing, not ordinariness.

D. WRONG: option (A) is the antonym, so "none of these" cannot be right.

Note: REPRODUCTION DEFECT: the stem prints "QUOYIDIAN". The word is "QUOTIDIAN" (daily, everyday, commonplace). The misspelling is noted, not silently corrected.

6 English

Mr Jonathan is not home today. _____ you try calling him tomorrow.

- A. I suggest ✓ **Correct answer**
- B. I want
- C. I insist
- D. None of these

A. CORRECT: "I suggest you try calling him tomorrow" is the natural, grammatical way to offer a suggestion. "Suggest" takes the clause "you try" directly.

B. WRONG: "I want you try calling" is ungrammatical; "want" needs "you TO try". It also states a demand, not a suggestion.

C. WRONG: "I insist you try calling" is possible grammar, but "insist" is far too forceful for a mild suggestion about phoning someone, and it changes the meaning of the sentence.

D. WRONG: option (A) fits, so "none of these" cannot be right.

Question 7 English

JIT was formed to investigate the crime. JIT here is a _noun.

- A. Collective ✓ **Correct answer**
- B. Virtual
- C. Concrete
- D. None of these

A. CORRECT: JIT stands for Joint Investigation Team — a group of people acting as one unit. A noun naming a group is a collective noun.

B. WRONG: "virtual" is not a class of noun. It describes something existing in effect or on a computer, not a noun type.

C. WRONG: a concrete noun names a physical thing you can touch, like a table. A team is a

single physical object, the grammar term for it is collective.

D. WRONG: option (A) is the class, so "none of these" cannot be right.

Question 8 English

The chairman is ill and we will have to _____ meeting for a few days.

- A. Put on
- B. Put of
- C. Put off ✓ **Correct answer**
- D. None of these

A. WRONG: "put on" means to wear clothes, or to stage a show. It does not mean to delay a meeting.

B. WRONG: "put of" is not a phrasal verb at all. REPRODUCTION DEFECT: the option prints "Put of", an evident misprint. It is shown as printed.

C. CORRECT: "put off" means to postpone, to delay to a later time — exactly what happens to a meeting when the chairman is ill.

D. WRONG: option (C) fits, so "none of these" cannot be right.

Question 9 English

Who is creating this mess? Select the correct passive for this sentence.

- A. Who has been created this mess?
- B. By whom has this mess been created?
- C. By whom is this mess being created? ✓ **Correct answer**
- D. By whim this mess is being created?

A. WRONG: this mixes the tenses — "has been created" is present perfect passive, but the original is present continuous ("is creating"). It also keeps "who" as the subject, which the passive form does not.

he structure "by whom ... been created" is passive, but the tense is present perfect ("has been created"), while the original asks about an action happening now ("is creating").

C. CORRECT: present continuous passive — "is being created" — matching the original "is creating", with "by whom" fronted for the question form.

D. WRONG: "whim" means a sudden fancy, not "whom". The spelling is wrong, and the word order is a statement, not a question.

Question 10 English

Saad often _____ late at night.

- A. Worked
- B. Work
- C. Works ✓ **Correct answer**
- D. None of these

A. WRONG: "worked" is past tense. "Often" with a present habit needs the present tense; the past tense would describe a finished period.

B. WRONG: "work" is the plural/base form. The subject "Saad" is singular (he), so the verb needs the "-s" ending.

C. CORRECT: third person singular present — "Saad often works late at night" — a regular habit, correctly formed.

D. WRONG: option (C) fits, so "none of these" cannot be right.

Question 11 English

A _____ simply makes a statement or express and opinion.

- A. Simple sentence
- B. Complement Sentence

larative Sentence ✓ **Correct answer**

- D. None of these

A. WRONG: a "simple sentence" is a sentence with one clause (one subject and one verb). That is about structure, not about purpose. A statement can be simple or complex in structure.

B. WRONG: there is no sentence type called a "complement sentence". A complement is a part of a sentence (a word completing the predicate), not a kind of sentence.

C. CORRECT: a declarative sentence is defined by its purpose — it makes a statement or expresses an opinion, as opposed to asking (interrogative), commanding (imperative) or exclaiming (exclamatory).

D. WRONG: option (C) is the term, so "none of these" cannot be right.

Question 12 English

The ship is bound _____ the united States.

- A. Onto
- B. At
- C. For ✓ **Correct answer**
- D. None of these

A. WRONG: "onto" means movement to the top of a surface ("climbed onto the roof"). A ship is not bound "onto" a country.

B. WRONG: "at" gives a point or place ("bound at the port"), not a destination. It does not carry the sense of heading towards.

C. CORRECT: "bound for" is the fixed phrase meaning heading towards a destination — the ship's destination is the United States.

D. WRONG: option (C) fits, so "none of these" cannot be right.

13 English

I am ____ sure of it as you are.

- A. Quite
- B. As ✓ **Correct answer**
- C. Very
- D. None of these

A. WRONG: "I am quite sure of it as you are" does not work. "Quite" intensifies "sure" on its own ("I am quite sure of it"), but it cannot form the comparison the second half of the sentence ("as you are") requires. The sentence needs the first half of a correlative comparison, not an intensifier.

B. CORRECT: "I am AS sure of it as you are." The correlative pair "as … as" compares two equal degrees of certainty — my certainty and yours. It is the standard English construction, and the second Scribd answer list gives the answer as "as" in terms.

C. WRONG: "I am very sure of it as you are" is ungrammatical in the same way as (A). "Very" intensifies, but it cannot pair with the following "as you are" to make a comparison. Only "as" completes the "as … as" frame.

D. WRONG: option (B) is the word the frame requires, so "none of these" cannot be right.

Note: REPRODUCTION NOTE: the primary source prints the sentence with NO blank ("I am sure of it as you are.") and option (A) as "Quit". The two cleaner reproductions both print the blank and option (A) as "Quite" — "Quit" in the primary is a misprint/OCR drop of the final "e", and "Quite" is the only plausible adverb distractor. The stem and options are shown here as in the cleaner reproductions; the primary's "Quit" variant is recorded, not silently corrected. Folded in 8 Nov 2026 from `37i-addendum-2026-10-31.md` (addendum Status: VERIFIED, 31 Oct 2026, second completion pass).

14 English

He writes _____ ink.

- A. In ✓ **Correct answer**
- B. Though
- C. Into
- D. None of these

A. CORRECT: "in ink" is the fixed phrase — writing done with ink, as opposed to "in pencil". The preposition "in" is used for the medium.

B. WRONG: "though" is a conjunction meaning "although". It cannot fill the blank after "writes".

C. WRONG: "into" means movement inward ("walked into the room"). Writing "into ink" is meaningless.

D. WRONG: option (A) fits, so "none of these" cannot be right.

Question 15 English

She is afraid _____ spider.

- A. From
- B. In
- C. Of ✓ **Correct answer**
- D. None of these

A. WRONG: "afraid from" is not English idiom. "From" gives a starting point, not the object of fear.

B. WRONG: "afraid in" is not idiom either. "In" gives a place or state, not what is feared.

C. CORRECT: "afraid of" is the fixed pairing — the thing feared follows "of": afraid of spiders, afraid of the dark.

option (C) fits, so "none of these" cannot be right.

Question 16 English

Somebody burnt the trash here. It can't be Sheena because she cares _____ the environment pretty much.

- A. Of
- B. In
- C. About ✓ **Correct answer**
- D. None of these

A. WRONG: "care of" means to look after something ("take care of the children"). It does not mean to be concerned about an issue.

B. WRONG: "care in" is not idiom for concern about a cause. It would need a different construction ("care in handling").

C. CORRECT: "care about" means to be concerned about, to feel something matters — "she cares about the environment" is exactly why she would not burn trash.

D. WRONG: option (C) fits, so "none of these" cannot be right.

Question 17 English

A person who tends to see the worst aspect of things or believes that the worst will happen.

- A. Patricide
- B. Pessimist ✓ **Correct answer**
- C. Optimist
- D. None of these

A. WRONG: "patricide" is the killing of one's father (from Latin "pater", father). It has nothing to do with outlook on life.

a pessimist is a person who habitually expects the worst — sees the worst aspect of things and believes the worst will happen.

C. WRONG: an optimist is the exact opposite — a person who expects the best and sees the good side of things.

D. WRONG: option (B) is the word, so "none of these" cannot be right.

Question 18 English

The baby cried for food. This sentence can be defined as:

- A. Passive Sentence
- B. Simple Sentence ✓ **Correct answer**
- C. Complex sentence
- D. None of these

A. WRONG: in the passive voice the subject receives the action ("food was cried for"). Here the baby does the crying — active voice, one clause.

B. CORRECT: one independent clause — one subject ("the baby") and one verb ("cried"), with a phrase ("for food") attached. That is the definition of a simple sentence.

C. WRONG: a complex sentence needs a subordinate (dependent) clause joined to a main clause ("the baby cried because it was hungry"). There is no subordinate clause here.

D. WRONG: option (B) fits, so "none of these" cannot be right.

Question 19 English

A compound sentence must have:

- A. One verb
- B. Subordinate clause
- C. Dependent clause
- D. None of these ✓ **Correct answer**

a compound sentence joins TWO independent clauses, so it has at least two verbs (one per clause). "One verb" describes a simple sentence.

B. WRONG: a subordinate clause is the mark of a COMPLEX sentence, not a compound one. A compound sentence uses independent clauses joined by a conjunction such as "and" or "but".

C. WRONG: "dependent clause" is another name for a subordinate clause — again the mark of a complex sentence, not a compound one.

D. CORRECT: the defining feature of a compound sentence — two or more independent clauses — is not among the options, so "none of these" is the answer.

Question 20 Current Affairs

On turkeys request, her national name at the united nations has been changed from Turkey to:

- A. Turkia
- B. Turkee
- C. Turkiye ✓ **Correct answer**
- D. None of these

A. WRONG: "Turkia" is not a name the United Nations adopted. It is a made-up variant.

B. WRONG: "Turkee" is a misspelling, not the official name. It reads like a mishearing of the Turkish word.

C. CORRECT: in 2022, at Turkey's request, the United Nations accepted "Turkiye" (Turkish: Turkiye) as the country's name in place of "Turkey", which the Turkish government said carried unwanted associations.

D. WRONG: option (C) is the adopted name, so "none of these" cannot be right.

Note: DATED ANSWER — correct as of 2022. The stem prints "turkeys" for the country's

Question 21 Current Affairs

Which country reported its first COVID cases on 12 May 2022?

- A. North Korea ✓ **Correct answer**
- B. Vietnam
- C. Cuba
- D. None of these

A. CORRECT: North Korea, which had long claimed zero COVID-19 cases, publicly acknowledged its first cases on 12 May 2022 and imposed a national lockdown.

B. WRONG: Vietnam had reported COVID-19 cases since early 2020, more than two years earlier.

C. WRONG: Cuba had reported cases since March 2020, also far earlier.

D. WRONG: option (A) is the country, so "none of these" cannot be right.

Question 22 Current Affairs

Pakistan National Counter terrorism Authority NACTA was create on:

- A. 2007
- B. 2009
- C. 2019
- D. None of these ✓ **Correct answer**

A. WRONG: no source gives 2007 for NACTA. NACTA's own site, CRSS and the Sindh Judicial Academy all give 2008; 2007 appears in no account of NACTA's establishment.

B. WRONG, and the excluded 2009 key is recorded with its reasons: Wikipedia's infobox gives "Formed 2009" and a same-exam answer list (Scribd, "Today's AD FIA Batch 1 (24-07-2022)") keys this question 2009, and a 2018 Dawn piece calls NACTA "Created in 2009".

n stands the Authority itself. NACTA's own site states "NACTA was established in 2008 and later formally created through Act of Parliament in 2013." CRSS states NACTA was formed in January 2008; the Sindh Judicial Academy states it was "established as an administrative entity under the Ministry of Interior in 2008" and "reorganized as a federal authority vide NACTA Act (2013)". Wikipedia's own article text likewise says NACTA was "initially set up in 2008, administratively" — its infobox contradicts its own text. The official account names two milestones, 2008 and 2013; 2009 is neither. The prep-site/same-exam key is therefore excluded, not followed.

C. WRONG: 2019 is not any NACTA milestone. The formal statutory creation was the NACTA Act 2013, not 2019.

D. CORRECT: NACTA was established in 2008, and 2008 is not among options (A)–(C). Since none of the listed years is the establishment year, "none of these" is the answer — exactly as the primary reproduction's own "(2008)" annotation indicates. TEACHING NOTE: teach the year as 2008 (administrative establishment, per NACTA itself), with the formal Act following in 2013; do not teach 2009.

Note: STEM AS PRINTED: "was create on" is the primary source's wording (for "was created in"). The primary source itself prints "(2008)" after option (D) — its own indication that the intended answer was the unlisted year 2008. Folded in 8 Nov 2026 from `37i-addendum-2026-10-31.md` (addendum Status: VERIFIED, 31 Oct 2026, second completion pass).

Question 23 Current Affairs

World Bicycle Day is celebrated every year?

- A. June 03 ✓ **Correct answer**
- B. June 02
- C. June 13
- D. None of these

A. CORRECT: the United Nations marks World Bicycle Day on 3 June every year,

the bicycle as a simple, affordable and clean means of transport.

B. WRONG: 2 June is not the date; it is one day early, and no UN bicycle observance falls on it.

C. WRONG: 13 June is not the date; it is ten days late.

D. WRONG: option (A) is the date, so "none of these" cannot be right.

Question 24 Current Affairs

World Braille Day is observed every year to raise awareness of the importance of Braille as a mean of communication for blind and partially sighted people?

- A. January 01
- B. January 02
- C. January 04 ✓ **Correct answer**
- D. None of these

A. WRONG: 1 January is New Year's Day, not the Braille observance.

B. WRONG: 2 January is not the date; it is two days early.

C. CORRECT: World Braille Day is 4 January, the birthday of Louis Braille (born 4 January 1809), the Frenchman who invented the Braille reading and writing system.

D. WRONG: option (C) is the date, so "none of these" cannot be right.

Question 25 Current Affairs

According to Stockholm International Peace Research Institutes 2021 reports, which country is the largest arm importer in the word.

- A. India ✓ **Correct answer**
- B. Saudia Arabia
- C. Israeel

A. CORRECT: in SIPRI's March 2021 report on 2016–2020 transfers, India was the world's largest importer of major arms.

B. WRONG: Saudi Arabia was the second-largest importer in the same report, not the largest.

C. WRONG: Israel is a significant arms EXPORTER, not one of the largest importers in this ranking.

D. WRONG: option (A) is the country, so "none of these" cannot be right.

Note: DATED ANSWER — correct as of the SIPRI 2021 report (covering 2016–2020). REPRODUCTION DEFECTS: the stem prints "in the word" for "in the world"; option (B) prints "Saudia Arabia" and option (C) prints "Israeel". Both are misspellings, shown as printed.

Question 26 Current Affairs

Which country hosted OIC foreign minister 47th meeting in November 2021?

- A. Algeria
- B. Niger ✓ **Correct answer**
- C. Nigeria
- D. None of these

A. WRONG: Algeria did not host the 47th session.

B. CORRECT: the 47th session met in Niamey, the capital of Niger, under the theme "United against Terrorism for Peace and Development".

C. WRONG: Nigeria is a different country (West Africa's largest), and it did not host this session. The similar name is the trap.

D. WRONG: option (B) is the host, so "none of these" cannot be right.

ODUCTION DEFECT — the year in the stem is wrong. The 47th session of the OIC Council of Foreign Ministers was held in Niamey, Niger, on 27–28 NOVEMBER 2020, not 2021 (ICESCO report of 30 November 2020; Pakistan MOFA statement; OIC resolutions OIC/CFM-47/2020). The host country is unaffected by the wrong year, so the question is kept with this flag.

Question 27 Current Affairs

What is the foreign minister of Spain who visited Pakistan in September 2021?

- A. Pilar Llip
- B. Jose Manuel Albares ✓ **Correct answer**
- C. Nasser Bourita
- D. None of these

A. WRONG: Pilar Llop was Spain's Minister of Justice, not its Foreign Minister. (The stem prints "Llip"; the name is Llop.)

B. CORRECT: Jose Manuel Albares became Spain's Foreign Minister in July 2021 and visited Pakistan in September 2021, meeting Pakistan's leadership on Afghanistan and bilateral ties.

C. WRONG: Nasser Bourita is the Foreign Minister of MOROCCO, not Spain.

D. WRONG: option (B) is the minister, so "none of these" cannot be right.

Question 28 Current Affairs

How many medals did Pakistan win in Tokyo 2020 Para Olympic Games?

- A. Zero
- B. One ✓ **Correct answer**
- C. Two
- D. None of these

Pakistan did win a medal, so zero is wrong.

B. CORRECT: Pakistan won exactly one medal at the Tokyo 2020 Paralympic Games — gold, by Haider Ali in the men's discus throw F37 event.

C. WRONG: there was no second medal; Pakistan's tally was one gold and nothing else.

D. WRONG: option (B) is the tally, so "none of these" cannot be right.

Note: The source prints the name "Haider Ali" directly under this question — the athlete concerned.

Question 29 Current Affairs

Which British foreign secretary visited Pakistan in September 2021?

- A. Philip Hammond
- B. Jeremy hunt
- C. Dominic Raab ✓ **Correct answer**
- D. None of these

A. WRONG: Hammond was Chancellor of the Exchequer (2016–2019) and earlier Foreign Secretary (2014–2016), but he held no such visit in 2021.

B. WRONG: Jeremy Hunt was Foreign Secretary in 2018–2019, before this visit. He was not Foreign Secretary in September 2021.

C. CORRECT: Raab was Foreign Secretary in September 2021 and visited Pakistan on 2–3 September 2021 for talks on Afghanistan after the Taliban takeover.

D. WRONG: option (C) is the visitor, so "none of these" cannot be right.

Question 30 Current Affairs

When did Russia Launch a large scale invasion of Ukraine, making a major escalation of the ongoing Russo Ukraine War?

- B. Feb 24 ✓ **Correct answer**
- C. Feb 26
- D. None of these

A. WRONG: 20 February 2022 was before the invasion; Russian forces were massed at the border but the large-scale invasion had not begun.

B. CORRECT: Russia launched its full-scale invasion of Ukraine on 24 February 2022.

C. WRONG: by 26 February the invasion was two days old; it is not the start date.

D. WRONG: option (B) is the date, so "none of these" cannot be right.

Question 31 Current Affairs

What is the name of black women Judge confirmed to USA Supereme Court?

- A. Clearence Thomas
- B. Thurgood Marshall
- C. Kitanji Brown Kackson ✓ **Correct answer**
- D. None of these

A. WRONG: Clarence Thomas is a man, confirmed to the Supreme Court in 1991. He is not a woman and not the 2022 appointee.

B. WRONG: Thurgood Marshall was a man, the first Black justice, confirmed in 1967. He is not the 2022 appointee.

C. CORRECT: Ketanji Brown Jackson was confirmed by the US Senate in April 2022, becoming the first Black woman justice of the US Supreme Court.

D. WRONG: option (C) is the judge, so "none of these" cannot be right.

Note: REPRODUCTION DEFECTS: the stem prints "Supereme" for "Supreme"; option (A) prints "Clearence" for "Clarence"; option (C) prints "Kitanji Brown Kackson" for "Ketanji

on : All are misspellings, shown as printed.

Question 32 Current Affairs

Which country will host the 2026 Commonwealth Games?

- A. Australia ✓ **Correct answer**
- B. England
- C. Canada
- D. None of these

A. CORRECT: as of the paper's date, Australia (Victoria) was the announced host.

B. WRONG: England hosted the 2022 Games in Birmingham, not the 2026 Games.

C. WRONG: Canada was not the announced host of the 2026 Games.

D. WRONG: option (A) was the announced host, so "none of these" cannot be right.

Note: DATED ANSWER — correct as of 2022. In April 2022 the Commonwealth Games Federation announced Victoria, Australia, as host of the 2026 Games. Victoria withdrew in July 2023 and Glasgow (Scotland) stepped in. The answer is a fact about 2022, not about today.

Question 33 Current Affairs

Recently who acquired Twitter for $44 billion?

- A. Elon Musk ✓ **Correct answer**
- B. Bill Gates
- C. Mark Zuckerberg
- D. None of these

A. CORRECT: the Tesla/SpaceX chief agreed the $44 billion purchase in April 2022.

B. WRONG: the Microsoft co-founder did not buy Twitter.

he Meta chief did not buy Twitter; his company runs Facebook, Instagram and WhatsApp.

D. WRONG: option (A) is the buyer, so "none of these" cannot be right.

Note: DATED ANSWER — correct as of 2022. Musk agreed to buy Twitter for about $44 billion in April 2022 and completed the purchase in October 2022.

Question 34 Current Affairs

Which country lifted 93 million peoples out of poverty since 2013 and has announced eradication of extreme poverty in its country?

- A. Indonesia
- B. Malaysia
- C. China ✓ **Correct answer**
- D. None of these

A. WRONG: Indonesia has reduced poverty, but the "93 million since 2013" figure and the eradication announcement belong to China, not Indonesia.

B. WRONG: Malaysia has a much smaller population and no such announcement; the figure cannot belong to it.

C. CORRECT: China announced in February 2021 that it had lifted about 98.99 million rural people (the question rounds this to "93 million" in some retellings; the official campaign figure most quoted is 98.99 million) out of extreme poverty since 2013 and declared extreme poverty eradicated.

D. WRONG: option (C) is the country, so "none of these" cannot be right.

Question 35 Current Affairs

Which Pakistani recently received the Ramon Magsaysay Award dubbed as Asia Highest award equivalent to Noble Prize?

- B. Faisal Eidhi
- C. Asma Jahangir
- D. None of these

A. CORRECT: Dr Muhammad Amjad Saqib, founder of the interest-free microfinance organisation Akhuwat, received the Ramon Magsaysay Award in 2021.

B. WRONG: Faisal Edhi leads the Edhi Foundation after his father Abdul Sattar Edhi, but he is not the Magsaysay recipient named here.

C. WRONG: the late human-rights lawyer Asma Jahangir won many international honours, but not the Ramon Magsaysay Award.

D. WRONG: option (A) is the recipient, so "none of these" cannot be right.

Question 36 Everyday Science

Fibula is a bone found in one of the following parts of the human body:

- A. Arm
- B. Leg ✓ **Correct answer**
- C. Skull
- D. None of these

A. WRONG: the arm's bones are the humerus, radius and ulna. The fibula is not among them.

B. CORRECT: the fibula is the slender long bone of the lower leg, running alongside the shin bone (tibia) from knee to ankle.

C. WRONG: the skull is made of cranial and facial bones such as the frontal, parietal and jaw bones. The fibula is not a skull bone.

D. WRONG: option (B) is the part, so "none of these" cannot be right.

37 Everyday Science

_____ can help bat to fly in the dark?

- A. Electromagnetic waves
- B. Ultrasonic Waves ✓ **Correct answer**
- C. Ultra violet Waves
- D. None of these

A. WRONG: electromagnetic waves include light and radio waves. Bats do not navigate by light or radio; in darkness light is useless to them.

B. CORRECT: bats use echolocation — they send out ultrasonic (very high frequency, above human hearing) sound waves and listen to the echoes bouncing off objects, building a picture of their surroundings in the dark.

C. WRONG: ultraviolet is a form of light beyond violet. Bats do not use ultraviolet light to navigate.

D. WRONG: option (B) is the mechanism, so "none of these" cannot be right.

Question 38 Everyday Science

One of the following can be manufactured by using wood:

- A. Gun powder
- B. Paper ✓ **Correct answer**
- C. Ink
- D. None of these

A. WRONG: gunpowder is a mixture of saltpetre, sulphur and charcoal. Charcoal can be made from wood, but gunpowder is not manufactured FROM wood as its defining material.

B. CORRECT: paper is manufactured from wood pulp — wood chips are broken down into cellulose fibres, which are pressed and dried into sheets.

nk is made from pigments or dyes mixed with a liquid carrier. It is not manufactured from wood.

D. WRONG: option (B) is the product, so "none of these" cannot be right.

Question 39 Everyday Science

At the time of solar eclipse, rate of photosynthesis will be:

- A. Increased
- B. Decreased ✓ **Correct answer**
- C. Remain Constant
- D. None of these

A. WRONG: photosynthesis is driven by sunlight. An eclipse reduces sunlight, so the rate cannot increase.

B. CORRECT: during a solar eclipse the Moon blocks sunlight, so less light reaches the leaves and the light-dependent reactions of photosynthesis slow down — the rate decreases.

C. WRONG: the rate depends on light intensity, which falls sharply during an eclipse, so it cannot stay constant.

D. WRONG: option (B) is the effect, so "none of these" cannot be right.

Question 40 Everyday Science

The sound waves cannot travel though:

- A. Gasses
- B. Liquids
- C. Vacuum ✓ **Correct answer**
- D. None of these

A. WRONG: sound travels through gases — that is how we hear speech through air. It

er in air than in liquids or solids, but it does travel.

B. WRONG: sound travels through liquids, and faster than in air (for example, whale calls travel great distances through seawater).

C. CORRECT: sound is a vibration of matter — it needs particles to pass the vibration along. A vacuum has no particles, so sound cannot travel through it. That is why explosions in space are silent.

D. WRONG: option (C) is the medium that blocks sound, so "none of these" cannot be right.

Question 41 Everyday Science

Systematic scientific study of Teeth is known as:

- A. Pedagogy
- B. Odontology ✓ **Correct answer**
- C. Ornithology
- D. None of these

A. WRONG: pedagogy is the science and art of teaching. It has nothing to do with teeth.

B. CORRECT: odontology (from Greek "odous", tooth) is the scientific study of teeth — their structure, development and diseases. Forensic odontology identifies people from dental records.

C. WRONG: ornithology is the study of birds. The similar ending "-ology" is the only connection.

D. WRONG: option (B) is the term, so "none of these" cannot be right.

Question 42 Everyday Science

Sir Frederick Banting discovered one of the following vaccine:

- B. Insulin ✓ **Correct answer**
- C. Anti Rabies Vaccine
- D. None of these

A. WRONG: COVID-19 vaccines were developed in 2020, a century after Banting's work and long after his death in 1941.

B. CORRECT: Frederick Banting, with Charles Best, isolated insulin in 1921–1922 at Toronto, giving diabetes patients a life-saving treatment. He won the Nobel Prize in 1923.

C. WRONG: the rabies vaccine was developed by Louis Pasteur in 1885, not by Banting.

D. WRONG: option (B) is the discovery, so "none of these" cannot be right.

Note: FLAG: the stem calls insulin a "vaccine". Insulin is a HORMONE, not a vaccine. The stem's word is loose, but the association it tests — Banting and insulin — is unambiguous, so the question is kept with this flag.

Question 43 Everyday Science

Bamboo belongs to:

- A. A weed family
- B. A herb Family
- C. A Grass Family ✓ **Correct answer**
- D. None of these

A. WRONG: "weed" is not a plant family; it is a loose word for an unwanted plant. Bamboo is classified in a proper botanical family.

B. WRONG: there is no family called the "herb family", and although some bamboos are herbaceous, the botanical classification is the grass family.

C. CORRECT: bamboo is a member of the grass family Poaceae — a tall, woody grass. Its

w stems are the classic grass structure, grown to tree size.

D. WRONG: option (C) is the family, so "none of these" cannot be right.

Question 44 Everyday Science

Glucose syrup is commonly made of:

- A. Sugarcane
- B. Maize ✓ **Correct answer**
- C. Beetroot
- D. None of these

A. WRONG: sugarcane is processed into cane sugar (sucrose), not into glucose syrup. Cane sugar and glucose syrup are different products.

B. CORRECT: glucose syrup (corn syrup) is made by breaking down maize (corn) starch into glucose. Maize starch is the standard commercial source.

C. WRONG: beetroot (sugar beet) is processed into beet sugar (sucrose), like sugarcane — not into glucose syrup.

D. WRONG: option (B) is the source, so "none of these" cannot be right.

Question 45 Everyday Science

The most abundant element on earth crust is:

- A. Carbon Mono oxide
- B. Ozone
- C. Oxygen ✓ **Correct answer**
- D. None of these

A. WRONG: carbon monoxide is a COMPOUND (carbon + oxygen) and a gas, not an element, and it is not a major part of the crust.

ozone is a form of oxygen (O_3) found mainly in the upper atmosphere, where it absorbs ultraviolet light. It is not a crust element.

C. CORRECT: oxygen is the most abundant element in the Earth's crust, about 46–47% by weight, mostly bound up in silicate rocks and oxides.

D. WRONG: option (C) is the element, so "none of these" cannot be right.

Question 46 Everyday Science

The most sensitive layer of eye is:

- A. Cornea
- B. Pupil
- C. Macula
- D. None of these ✓ **Correct answer**

A. WRONG: the cornea is the clear front window of the eye. It bends light, but it is not the light-sensitive layer; it contains no photoreceptors.

B. WRONG: the pupil is not a layer at all — it is the opening in the iris through which light enters.

C. WRONG, as an answer to this stem: the macula is the small central SPOT of the retina with the sharpest vision. It is a region within a layer, not itself a layer. Students often pick it, but the stem asks for the LAYER.

D. CORRECT: the light-sensitive layer of the eye is the RETINA, which lines the back of the eye and holds the rods and cones. The retina is not listed, so "none of these" is the answer. (The macula is the most sensitive spot WITHIN the retina — the distinction is layer versus spot.)

Question 47 Everyday Science

Which is the slowest rotating planet?

- B. Venus ✓ **Correct answer**
- C. Jupiter
- D. None of these

A. WRONG: Mars rotates once in about 24.6 hours — close to Earth's day, far from the slowest.

B. CORRECT: Venus rotates once in about 243 Earth days — the slowest rotation of any planet — and it rotates backwards (retrograde) compared with most planets.

C. WRONG: Jupiter is the FASTEST rotating planet, spinning once in under 10 hours despite being the largest.

D. WRONG: option (B) is the planet, so "none of these" cannot be right.

Question 48 Everyday Science

Deficiency of Vitamin D in our body causes:

- A. Scurvy
- B. Rickets ✓ **Correct answer**
- C. Hair fall
- D. None of these

A. WRONG: scurvy (bleeding gums, weak connective tissue) is caused by deficiency of Vitamin C, not Vitamin D.

B. CORRECT: Vitamin D is needed to absorb calcium for bones. In children its deficiency softens growing bones, causing rickets (bowed legs, deformed bones); in adults the same deficiency causes osteomalacia.

C. WRONG: hair fall has many causes, but it is not the classic disease of Vitamin D deficiency. The textbook deficiency disease is rickets.

option (B) is the disease, so "none of these" cannot be right.

Question 49 Everyday Science

Which metallic element is liquid at room temperature?

- A. Zinc
- B. Nickle
- C. Lead
- D. None of these ✓ **Correct answer**

A. WRONG: zinc is a solid metal at room temperature (melting point about 420 C).

B. WRONG: nickel is a solid metal at room temperature (melting point about 1,455 C).

C. WRONG: lead is a solid metal at room temperature (melting point about 327 C).

D. CORRECT: the metal that is liquid at room temperature is MERCURY — and mercury is not among the options. (Bromine is the only other element liquid at room temperature, and it is a non-metal.) So "none of these" is the answer.

Note: REPRODUCTION DEFECT: option (B) prints "Nickle" for "Nickel".

Question 50 Everyday Science

The purity of one of the following is measured by Lactometer:

- A. Honey
- B. Water
- C. Milk ✓ **Correct answer**
- D. None of these

A. WRONG: honey purity is tested by other methods (for example, water content and sugar profile), not by a lactometer.

B. WRONG: water purity is measured by other instruments (for example, a hydrometer or

meter), not a lactometer.

C. CORRECT: a lactometer measures the density (specific gravity) of milk, which shows whether water has been added — the standard quick test of milk purity.

D. WRONG: option (C) is the liquid, so "none of these" cannot be right.

Question 51 Everyday Science

Which one of the following is the major ingredients of leather?

- A. Carbohydrates
- B. Collagen ✓ **Correct answer**
- C. Syntans
- D. None of these

A. WRONG: carbohydrates (sugars, starches) are not the main component of leather. Leather is animal skin, which is protein, not carbohydrate.

B. CORRECT: leather is made from animal hides, and the main structural protein of skin is collagen. Tanning preserves and stabilises the collagen fibres.

C. WRONG: syntans (synthetic tannins) are chemicals USED in tanning leather; they are processing agents, not the ingredient leather is made of.

D. WRONG: option (B) is the ingredient, so "none of these" cannot be right.

Question 52 Mathematics

If a > b and b > a then ?

- A. a = b
- B. A not equal to b
- C. Cannot be evaluated ✓ **Correct answer**
- D. None of these

equality contradicts both conditions. If a = b, neither a > b nor b > a holds.

B. WRONG as the answer: it is true that EITHER condition alone would make a and b unequal, but the question asks what follows from BOTH together — and both together are impossible, so the relation cannot be evaluated. Picking (B) ignores the contradiction.

C. CORRECT: the two conditions are mutually exclusive, so the question has no consistent answer from the given information.

D. WRONG: option (C) is the position, so "none of these" cannot be right.

Note: Working: the two conditions cannot both be true. If a > b and b > a, then by transitivity a > a, which is impossible for any number. The premise is self-contradictory, so no consistent relation between a and b can be evaluated from it.

Question 53 Mathematics

If Amna is x year old then 5 times Amna Age three years ago is:

- A. 3(x-5)
- B. 5(x-3) ✓ **Correct answer**
- C. 3(x+5)
- D. None of these

A. WRONG: this multiplies by 3 instead of 5 and subtracts 5 instead of 3 — both numbers swapped.

B. CORRECT: five times the age three years ago, step by step as shown.

C. WRONG: this adds 5 years (a future age) and multiplies by 3 — the opposite of what is asked.

D. WRONG: option (B) is the expression, so "none of these" cannot be right.

Note: Working: Amna's age now is x. Three years ago her age was $x - 3$. Five times that age is $5(x - 3)$.

54 Mathematics

Evaluate the expression: 27 / 3^2 + 4·2 − 1

- A. 0
- B. 12
- C. 10 ✓ **Correct answer**
- D. None of these

A. WRONG: the derivation gives 10, not 0. Zero would require the positive terms to cancel entirely, which they do not.

B. WRONG: 12 comes from misreading the expression — for example, ignoring the exponent and computing 27 ÷ 3 + 4 − 1 = 12. With the exponent applied first, the result is 10.

C. CORRECT, by independent derivation: exponents first, 3^2 = 9, so 27 ÷ 9 = 3; multiplication next, 4 × 2 = 8; then left to right, 3 + 8 − 1 = 10.

D. WRONG: 10 is among the options, so "none of these" cannot be right.

Note: REPRODUCTION DEFECT: the primary prints the expression garbled as "27 / 32 + 4 : 2 - 1" — the superscript "²" collapsed into "32" and the multiplication dot "·" into ":". The clean reading is shown above; the garble is disclosed, not hidden. FOLD 8 Nov 2026: decided by assistant under owner's 8 Nov delegation — VERIFIED under the clean reading (garble disclosed above); the 31-Oct addendum's EXCLUDED ruling is superseded by the Testpoint clean typesetting with worked steps (re-fetched 8 Nov 2026) + independent derivation + McqsPlanet key C 10.

Question 55 Mathematics

What is the solution interval of the inequality 6x – 2 ≥ 3x + 10?

- A. Infinity , 4
- B. - Infinty , 4

infinity

- D. None of these ✓ **Correct answer**

A. WRONG: this is not a written interval at all, and its order is reversed. It does not state [4, infinity).

B. WRONG: (-infinity, 4) would mean x LESS than 4 — the opposite direction. (The option also misspells "Infinty".)

C. WRONG: (-4, infinity) starts at −4, but the boundary is +4, and the bracket must include 4. Both the number and the inclusion are wrong.

D. CORRECT: none of the three printed options is the interval [4, infinity), so "none of these" is the answer. REPRODUCTION DEFECT: the options print no brackets and garble the endpoints; the defect is stated, not silently corrected.

Note: Working: 6x − 2 ≥ 3x + 10. Subtract 3x from both sides: 3x − 2 ≥ 10. Add 2: 3x ≥ 12. Divide by 3: x ≥ 4. The solution interval is [4, infinity) — 4 included, up to infinity.

Question 56 Mathematics

Mr A can do a particular work in 6 hours, and Mr B can do the same work in 12 hours. How much time it will take if they do the work together.

- A. 7 Hours
- B. 5 hours
- C. 4 Hours ✓ **Correct answer**
- D. None of these

A. WRONG: 7 hours is longer than even B working alone would need (12 hours is B alone; together must be faster than either alone — but 7 is also not the computed figure).

B. WRONG: 5 hours is not the combined rate; the rates add to 1⁄4 of the work per hour, giving 4 hours, not 5.

as worked out — the combined rate is a quarter of the work per hour.

D. WRONG: option (C) is the time, so "none of these" cannot be right.

Note: Working: in one hour A does 1/6 of the work and B does 1/12. Together in one hour they do 1/6 + 1/12 = 2/12 + 1/12 = 3/12 = 1/4 of the work. So the whole work takes 4 hours.

Question 57 Mathematics

A sequence is called Arithmetic if it has:

- A. Addition
- B. Common difference ✓ **Correct answer**
- C. Common ration
- D. None of these

A. WRONG: an arithmetic sequence does use addition, but "addition" alone does not define it — any sequence built by adding something different each time is not arithmetic.

B. CORRECT: an arithmetic sequence is defined by a CONSTANT difference between consecutive terms — the same number added every time (for example 3, 7, 11, 15 with common difference 4).

C. WRONG: a common RATIO (the stem prints "ration") defines a GEOMETRIC sequence, where each term is multiplied by the same number — not an arithmetic one.

D. WRONG: option (B) is the definition, so "none of these" cannot be right.

Question 58 Mathematics

Arithmetic mean between x - 3 and x + 3 is:

- A. -6
- B. 6
- C. x ✓ **Correct answer**
- D. None of these

−6 would come from wrongly subtracting the terms or mishandling the signs.

B. WRONG: 6 would come from adding 3 + 3 and forgetting the x terms entirely.

C. CORRECT: as worked out.

D. WRONG: option (C) is the mean, so "none of these" cannot be right.

Note: Working: the arithmetic mean of two numbers is their sum divided by 2: ((x − 3) + (x + 3)) / 2 = (2x) / 2 = x. The −3 and +3 cancel.

Question 59 Mathematics

A single A.M between a and b is:

- A. A+b/2 ✓ **Correct answer**
- B. +- √ab
- C. 2ab / (a + b)
- D. None of these

A. CORRECT: the single arithmetic mean between two numbers is their average: (a + b) / 2 — the number exactly halfway between them.

B. WRONG: the square root of ab is the GEOMETRIC mean, not the arithmetic mean.

C. WRONG: this is the HARMONIC mean of a and b, not the arithmetic mean.

D. WRONG: option (A) is the mean, so "none of these" cannot be right.

Note: REPRODUCTION DEFECT: option (A) prints "A+b/2" — the capital A and the missing brackets are the source's formatting. Read as (a + b) / 2.

Question 60 Mathematics

If AP is -15, -22, -29 ..... then 11th term will be:

- A. -85 ✓ **Correct answer**

- C. -66
- D. None of these

A. CORRECT: as worked out.

B. WRONG: the sign is wrong — the sequence decreases, so the 11th term must be negative.

C. WRONG: −66 would be roughly the 8th or 9th term, not the 11th — it comes from using too few steps.

D. WRONG: option (A) is the term, so "none of these" cannot be right.

Note: Working: the common difference is d = −22 − (−15) = −7. The nth term is a + (n − 1)d. The 11th term is −15 + 10 × (−7) = −15 − 70 = −85.

Question 61 Mathematics

Sum of 4 A.M between 18 and 3 is:

- A. 15
- B. 12
- C. 42 ✓ **Correct answer**
- D. None of these

A. WRONG: 15 is the FIRST mean, not the sum of all four.

B. WRONG: 12 is the SECOND mean, not the sum.

C. CORRECT: as worked out.

D. WRONG: option (C) is the sum, so "none of these" cannot be right.

Note: Working: n arithmetic means inserted between two numbers sum to n times the average of the two end numbers. The average of 18 and 3 is (18 + 3) / 2 = 10.5. Four means

0.5 = 42. (Check: the common difference is (3 − 18) / 5 = −3, so the four means are 15, 12, 9, 6, and 15 + 12 + 9 + 6 = 42.) FACSIMILE (8 Nov 2026): the printed option set (A) 15 (B) 12 (C) 42 (D) None of these confirmed verbatim from both Drive PDF facsimiles of the printed booklet (booklet Q62; File A 13 pp, File B 12 pp, agreeing). The answer (C) 42 was already VERIFIED by arithmetic above; the facsimile is a second source for the printed wording. Booklet Q62 = file Q61 (see verification summary).

Question 62 Mathematics

What percent of 120 are 90?

- A. 0.25
- B. 0.5
- C. 0.75 ✓ **Correct answer**
- D. None of these

A. WRONG: 0.25 = 25%; 25% of 120 is 30, not 90.

B. WRONG: 0.5 = 50%; 50% of 120 is 60, not 90.

C. CORRECT, by independent derivation: 90 ÷ 120 = 3/4 = 0.75, and 0.75 × 100 = 75%. The value 0.75 IS 75% expressed as a decimal, so the correct value is among the options.

D. WRONG: option (C) is the value equal to 75%, so "none of these" cannot be right.

Note: REPRODUCTION NOTE: the stem asks for a percent while the primary prints the options as decimals. This is taught as the INTENDED answer — (C) 0.75, the decimal equal to 75% — and the literal-reading objection ("no option prints 75%") is disclosed, not hidden. FOLD 8 Nov 2026: decided by assistant under owner's 8 Nov delegation — VERIFIED as the intended answer (C) 0.75; the 7 Nov addendum's promotion is folded in (derivation + two reproductions keying the 0.75 / 75% option); the literal-reading objection is disclosed above, not hidden.

63 Mathematics

If X% of Y is 100 and Y% of Z is 200, Find the relation between X and Z:

- A. Z = 2X ✓ **Correct answer**
- B. Z = X/2
- C. X = Z4
- D. None of these

A. CORRECT: as worked out.

B. WRONG: this inverts the relation — Z is twice X, not half of X.

C. WRONG: this is not a meaningful relation as printed (it appears to be a garbled "X = Z/4" or similar); it does not match the derived result.

D. WRONG: option (A) is the relation, so "none of these" cannot be right.

Note: Working: "X% of Y is 100" means (X/100) × Y = 100, so XY = 10,000. "Y% of Z is 200" means (Y/100) × Z = 200, so YZ = 20,000. Dividing the second equation by the first: (YZ)/(XY) = 20,000/10,000, so Z/X = 2, giving Z = 2X.

Question 64 Mathematics

The value of computer depreciates by 10% annually. If present value of the computer is 100000 then what will be its value after 2 years?

- A. 18000
- B. 10000
- C. 81000 ✓ **Correct answer**
- D. None of these

A. WRONG: 18,000 is not the remaining value; it resembles a miscalculated depreciation amount.

B. WRONG: 10,000 is one year's 10% of the original value — the depreciation for a single

value after two years.

C. CORRECT: as worked out.

D. WRONG: option (C) is the value, so "none of these" cannot be right.

Note: Working: after one year the value is 100,000 × 0.9 = 90,000. After two years it is 90,000 × 0.9 = 81,000. In one step: 100,000 × (1 − 10/100)² = 100,000 × 0.81 = 81,000. NOTE: the reproduction itself prints this working under the question ("Value after 2 Years = Rs[100000 × (1 – 10/100)2] = Rs (100000 × 0.9 × 0.9) = Rs 81000"). The working was re-checked, not trusted silently, and it is correct.

Question 65 Mathematics

In a town, 45% population read magazine A, 55% read magazine B, 40% read magazine C, 30% read magazines A and B, 15% read magazines B and C, 25% read magazines A and C; and 10% read all the three magazines. What percentage do not read any magazine?

- A. 15
- B. 10
- C. 20 ✓ **Correct answer**
- D. None of these

A. WRONG: 15 is the percentage reading B and C only — one of the overlaps, not the answer.

B. WRONG: 10 is the percentage reading all three magazines — again an overlap, not the answer.

C. CORRECT: as worked out.

D. WRONG: option (C) is the percentage, so "none of these" cannot be right.

Note: Working (inclusion–exclusion): percentage reading at least one = 45 + 55 + 40 − 30

10 = 80. So the percentage reading none = 100 − 80 = 20.

Question 66 Mathematics

The tank full of patrol in Haroons Motorcycle lasts for 10 days, If he start using 25% more every day for how many days will the tank full of petrol last?

- A. 5 days
- B. 7 days
- C. 8 days ✓ **Correct answer**
- D. None of these

A. WRONG: 5 days would mean doubling the daily use, not a 25% increase.

B. WRONG: 7 days does not follow from the 25% increase; the division gives exactly 8.

C. CORRECT: as worked out.

D. WRONG: option (C) is the time, so "none of these" cannot be right.

Note: REPRODUCTION DEFECT: the stem prints "patrol" for "petrol" in the first line. Read as "petrol". Working: the tank holds 10 days' supply at the old daily rate. Using 25% more each day means the new daily use is 1.25 times the old. The tank lasts 10 / 1.25 = 8 days.

Question 67 Mathematics

A ratio equivalent to 3:7:

- A. 3:9
- B. 6:10
- C. 9:21 ✓ **Correct answer**
- D. None of these

A. WRONG: 3:9 simplifies to 1:3, not 3:7. Only the second part was multiplied.

B. WRONG: 6:10 simplifies to 3:5, not 3:7. The two parts were multiplied by different

C. CORRECT: both parts multiplied by 3, so the ratio is unchanged.

D. WRONG: option (C) is equivalent, so "none of these" cannot be right.

Note: Working: equivalent ratios come from multiplying BOTH parts by the same number. 3:7 multiplied by 3 gives 9:21.

Question 68 Current Affairs

When did Joe Biden took Oath?

- A. Jan 20, 2020
- B. Jan 10, 2021
- C. Jan 20, 2021 ✓ **Correct answer**
- D. None of these

A. WRONG: 20 January is Inauguration Day, but in 2020 the president inaugurated was Donald Trump (2017) — Biden's inauguration was a year later. The day is right, the year is wrong.

B. WRONG: 10 January is not Inauguration Day, and Biden took the oath on the 20th, not the 10th.

C. CORRECT: Joe Biden took the oath of office as the 46th President of the United States on 20 January 2021.

D. WRONG: option (C) is the date, so "none of these" cannot be right.

Question 69 Current Affairs

The WHO declared COVID 19 as pandemic:

- A. Dec 2019
- B. Mar 2020 ✓ **Correct answer**

- D. None of these

A. WRONG: December 2019 is when the first cases were identified in Wuhan. The WHO had not declared a pandemic then.

B. CORRECT: the World Health Organization declared COVID-19 a pandemic on 11 March 2020.

C. WRONG: by December 2020 the pandemic had been running for nine months; the declaration was far earlier.

D. WRONG: option (B) is the month, so "none of these" cannot be right.

Question 70 Pakistan Studies / General Knowledge

What is the Article 370 of the Indian Constitution?

- A. It gave special status to Kashmir ✓ **Correct answer**
- B. It allows Kashmir to become separate state if they vote for it
- C. Regarding the right of secession
- D. None of these

A. CORRECT: Article 370 gave Jammu and Kashmir a special status within the Indian Constitution — its own constitution and autonomy over most matters except defence, foreign affairs and communications. (India revoked it in August 2019.)

B. WRONG: Article 370 contained no right to become a separate state by vote. It dealt with autonomy within India, not secession.

C. WRONG: no article of the Indian Constitution grants a right of secession. Article 370 was about special status, not leaving India.

D. WRONG: option (A) is the substance, so "none of these" cannot be right.

71 Current Affairs

What is the name of foreign minister of Italy who visited Paksitan in September 2021?

- A. Matteo Renzi
- B. Matteo Salvini
- C. Luigi Di Maio ✓ **Correct answer**
- D. None of these

A. WRONG: Renzi was Italy's Prime Minister (2014–2016), not its Foreign Minister in 2021.

B. WRONG: Salvini is an Italian party leader (Lega) and former Deputy Prime Minister; he was not Foreign Minister in 2021.

C. CORRECT: Luigi Di Maio was Italy's Foreign Minister and visited Pakistan in September 2021 for talks on Afghanistan and bilateral relations.

D. WRONG: option (C) is the minister, so "none of these" cannot be right.

Question 72 Current Affairs

Who is the governor of Balochistan?

- A. Mohammad Khan Achakzai
- B. Zahoor Ahmed Agha ✓ **Correct answer**
- C. Amanullah khan yasinzai
- D. None of these

A. WRONG: Achakzai was Governor of Balochistan from 2013 to 2018, before this paper.

B. CORRECT: Zahoor Ahmed Agha was appointed Governor of Balochistan in July 2021 and held the office through 2022 (until October 2022).

C. WRONG: Amanullah Khan Yasinzai was Governor from 2018 to 2021 — the predecessor of Agha, not the holder in July 2022.

D. WRONG: option (B) was the governor, so "none of these" cannot be right.

ANSWER — correct as of the paper's date, 24 July 2022.

Question 73 Current Affairs

What us the name of Project European Union announced in Dec 2021 to support infrastructure development around the world to counter China BRI?

- A. Global Gateway ✓ **Correct answer**
- B. World Gateway
- C. International Gateway
- D. None of these

A. CORRECT: the European Union announced the "Global Gateway" strategy in December 2021 — an infrastructure investment plan presented as an alternative to China's Belt and Road Initiative (BRI).

B. WRONG: no such EU project exists; it is a made-up variation on the real name.

C. WRONG: no such EU project exists; another made-up variation.

D. WRONG: option (A) is the project, so "none of these" cannot be right.

Question 74 Current Affairs

Who is the current President of Srilanka?

- A. Gotabaya Rajapksa
- B. Mahinda Rajapaksa
- C. Maitharipala Sirisena
- D. None of these Ranil Wickremesinghe ✓ **Correct answer**

A. WRONG: Gotabaya Rajapaksa was President until he resigned on 14 July 2022, after mass protests. He was no longer president on 24 July 2022.

B. WRONG: Mahinda Rajapaksa was President from 2005 to 2015 and later Prime Minister; he was not president in July 2022.

Maithripala Sirisena was President from 2015 to 2019, before Gotabaya.

D. CORRECT: the president on 24 July 2022 was Ranil Wickremesinghe — acting president from 15 July after Gotabaya's resignation, then elected president by parliament on 20 July. His name is not among options (A)–(C), so "none of these" is the answer.

Note: DATED ANSWER — correct as of the paper's date, 24 July 2022. REPRODUCTION DEFECT: the name "Ranil Wickremesinghe" is printed in the source directly after option (D) "None of these" — it is the reproduction's own indication of the intended answer, shown here as printed.

Question 75 Current Affairs

Who is the General Secretary of Of the United nation?

- A. Antonio Gutress ✓ **Correct answer**
- B. Ban ki moon
- C. Kofi Anan
- D. None of these

A. CORRECT: Antonio Guterres (spelled Guterres) became UN Secretary-General on 1 January 2017 and held the office at the paper's date.

B. WRONG: Ban Ki-moon was Secretary-General from 2007 to 2016 — the predecessor of Guterres.

C. WRONG: Kofi Annan was Secretary-General from 1997 to 2006, two holders before Guterres.

D. WRONG: option (A) is the Secretary-General, so "none of these" cannot be right.

Note: REPRODUCTION DEFECTS: the stem prints "General Secretary of Of the United nation" (the office is Secretary-General of the United Nations); option (A) prints "Gutress", option (B) prints "Ban ki moon", option (C) prints "Kofi Anan". All are misspellings, shown as printed.

76 Current Affairs

Where the 47th G7 summit was held from June 11 to 13, 2021?

- A. UK ✓ **Correct answer**
- B. China
- C. Russia
- D. None of these

A. CORRECT: the 47th G7 summit was held at Carbis Bay, Cornwall, in the United Kingdom, on 11–13 June 2021.

B. WRONG: China is not a G7 member and did not host the summit.

C. WRONG: Russia is not a G7 member (it was suspended from the former G8 in 2014) and did not host the summit.

D. WRONG: option (A) is the host, so "none of these" cannot be right.

Question 77 Current Affairs

Which country hosted ASEAN summit 2020 via video conferencing?

- A. Singapore
- B. Vietnam ✓ **Correct answer**
- C. Thailand
- D. None of these

A. WRONG: Singapore chaired ASEAN and hosted the summits in 2018, not 2020.

B. CORRECT: Vietnam held the ASEAN chair in 2020 and hosted the 36th and 37th ASEAN Summits by video conference because of COVID-19.

C. WRONG: Thailand chaired ASEAN and hosted the summits in 2019, not 2020.

D. WRONG: option (B) is the host, so "none of these" cannot be right.

78 Current Affairs

Which country super computer become the fastest in the world?

- A. US ✓ **Correct answer**
- B. Japan
- C. China
- D. None of these

A. CORRECT: Frontier (USA) took the top spot in June 2022.

B. WRONG: Japan's Fugaku held the top spot for the previous two years, until Frontier overtook it in June 2022.

C. WRONG: no Chinese system topped the June 2022 TOP500 list.

D. WRONG: option (A) is the country, so "none of these" cannot be right.

Note: DATED ANSWER — correct as of mid-2022. In the June 2022 TOP500 ranking, the Frontier system at Oak Ridge National Laboratory (USA) overtook Japan's Fugaku as the world's fastest supercomputer — the first machine past one exaflop per second (1.1 exaFLOPS).

Question 79 Current Affairs

Who is current chancellor of Germny?

- A. Angela Markel
- B. Olaf Scholz ✓ **Correct answer**
- C. Annalena Baerbock
- D. None of these

A. WRONG: Angela Merkel was Chancellor from 2005 until December 2021, when she left office. She was not Chancellor at the paper's date.

B. CORRECT: Olaf Scholz became Chancellor of Germany on 8 December 2021 and held

the paper's date.

C. WRONG: Baerbock became Foreign Minister in Scholz's government, not Chancellor.

D. WRONG: option (B) is the Chancellor, so "none of these" cannot be right.

Note: DATED ANSWER — correct as of 2022. REPRODUCTION DEFECTS: the stem prints "Germny" for "Germany"; option (A) prints "Markel" for "Merkel".

Question 80 Current Affairs

Which one is the northern end of Paksitan side of CPEC?

- A. Khyber Pass
- B. Babysar Pass
- C. Khunjerab Pass ✓ **Correct answer**
- D. None of these

A. WRONG: the Khyber Pass lies on Pakistan's western border with Afghanistan. It is not the northern end of CPEC.

B. WRONG: the Babusar Pass is a high pass in northern Pakistan, but it is not the CPEC route's northern terminus.

C. CORRECT: the Khunjerab Pass, on the Pakistan–China border in Gilgit-Baltistan, is the northern end of the China–Pakistan Economic Corridor on the Pakistan side, where the Karakoram Highway crosses into China.

D. WRONG: option (C) is the pass, so "none of these" cannot be right.

Note: REPRODUCTION DEFECT: option (B) prints "Babysar Pass" for "Babusar Pass".

Question 81 Current Affairs

When was the annual meeting not virtual of the world Economic Forum held?

- A. Jan 20-24, 2020

ust 17-20, 2021

- C. Jan 17-21, 2022
- D. None of these ✓ **Correct answer**

A. WRONG: the 2020 Annual Meeting in Davos was held on 21–24 January 2020, not 20–24 January. The printed dates are wrong by a day, so this option does not state the meeting's dates.

B. WRONG: no in-person Annual Meeting was held in August 2021. The 2021 meeting was virtual.

C. WRONG: this was the PLANNED date for the 2022 meeting, but it was postponed because of the Omicron variant; in that week only a virtual "Davos Agenda" event took place. The in-person meeting did not happen in January 2022.

D. CORRECT: the first in-person Annual Meeting after the pandemic break was held on 22–26 May 2022 in Davos — a date none of the options states. So "none of these" is the answer.

Question 82 Current Affairs

Who led the Afghan Taliban team during the peace negotiation with US at Doha.

- A. Abdul Hakim
- B. Ans Haqani
- C. Sher Muhammad Abbas Stanikzai ✓ **Correct answer**
- D. None of these

A. WRONG: Abdul Hakim Haqqani was a member of the Taliban negotiating team and its chief justice figure, but he did not LEAD the team in the Doha talks.

B. WRONG: no person of this name led the Doha team. Sirajuddin Haqqani led the Haqqani network and was not the Doha negotiating team's leader.

C. CORRECT: Stanikzai, the Taliban's political office chief negotiator, led the Taliban team

peace negotiations with the United States that produced the February 2020 agreement.

D. WRONG: option (C) is the leader, so "none of these" cannot be right.

Note: REPRODUCTION DEFECT: option (B) prints "Ans Haqani" — the name intended is evidently a garbled form of a Haqqani name. It is shown as printed.

Question 83 Current Affairs

Which country is south neighbour of US of America?

- A. Panama
- B. Canada
- C. Mexico ✓ **Correct answer**
- D. None of these

A. WRONG: Panama is in Central America, far to the south, but it does not share a border with the United States. It is not a neighbour at all.

B. WRONG: Canada is the United States' NORTHERN neighbour, sharing the long northern border. The question asks for the southern one.

C. CORRECT: Mexico shares the United States' southern border — it is the southern neighbour.

D. WRONG: option (C) is the neighbour, so "none of these" cannot be right.

Question 84 FIA Act

FIA came into force on:

- A. 1st January 1974
- B. 13th January 1975 ✓ **Correct answer**
- C. 15th January 1975
- D. None of these

1974 is the year in the Act's short title ("Federal Investigation Agency Act, 1974"), but the Act was not in force on 1 January 1974 — it had not yet been passed.

B. CORRECT: the FIA Act, 1974 (Act No. VIII of 1975) was promulgated on 13 January 1975, and section 1(3) says "It shall come into force at once." The FIA's own history page confirms the Act "was promulgated on 13-01-1975, bringing Federal Investigation Agency (FIA) into existence."

C. WRONG: 15 January is two days late. The promulgation date is 13 January, and the Act came into force at once.

D. WRONG: option (B) is the date, so "none of these" cannot be right.

Question 85 FIA Act

The preamble of the FIA Act provides the constitution of an Agency for:

- A. Trial of certain offences committed in connection with matters concerning the Federal Government
- B. Investigation of certain offences committed in connection with matters concerning the Federal Government ✓ **Correct answer**
- C. Inquiry and investigation of certain offences committed in connection with matters the Federal Government
- D. All of the Above

A. WRONG: the preamble says nothing about trial. The Agency investigates; trial is the courts' function (the Act's s. 5A, on officers deemed Public Prosecutors for cases "sent up for trial", confirms trial happens elsewhere). "Trial" is the wrong verb for what the preamble provides for.

B. CORRECT: the preamble, verbatim in both Act texts — "Whereas it is expedient to provide for the constitution of a Federal Investigation Agency for the investigation of certain offences committed in connection with matters concerning the Federal Government, and for matters connected therewith". Option (B) reproduces the preamble's

ords exactly ("investigation", not "trial", not "inquiry and investigation").

C. WRONG as a statement of the PREAMBLE: section 3(1) of the Act does say the Agency is constituted "for inquiry into, and investigation of, the offences specified in the Schedule" — but the question asks what the PREAMBLE provides for, and the preamble uses "investigation" alone. Adding "inquiry and" overstates the preamble's wording, and the option as printed also drops "concerning". It describes section 3, not the preamble.

D. WRONG: options (A) and (C) differ from the preamble's wording, so not all of the options can be right. Only (B) matches the preamble.

Note: REPRODUCTION NOTE: the primary source fragments the lettering — option (B)'s tail ("concerning the federal government") falls under a stray "C", option (C) is lettered "D", and "All of these" appears as an unlettered stray line. The cleaner reproductions restore the four letters with the same A/B/C wording. Two wording variants are recorded, not silently corrected: the primary prints option (A) "Trial", the cleaner reproductions print "Trail" [sic] for "Trial"; option (D) reads "All of the Above" in the cleaner reproductions and "All of these" as the primary's stray line. Option (C) as printed in every reproduction omits "concerning" before "the Federal Government" ("matters the Federal Government"); it is shown as printed. Folded in 8 Nov 2026 from `37i-addendum-2026-10-31.md` (addendum Status: VERIFIED, 31 Oct 2026, second completion pass).

Question 86 FIA Act

Which of the following is not correct?

- A. FIA act is applicable to public servant
- B. FIA act is applicable to all citizens of Pakistan
- C. FIA act is applicable to all employees ✓ **Correct answer**
- D. None of these

A. CORRECT statement, therefore WRONG as the answer: section 1(2) expressly says the Act applies to public servants, wherever they may be.

statement, therefore WRONG as the answer: section 1(2) expressly says the Act applies to all citizens of Pakistan, wherever they may be.

C. NOT CORRECT, and therefore the answer: section 1(2) does not say the Act applies to "all employees" generally. Its reach is to citizens and public servants; employees are caught only where the scheduled offences and the Act's other provisions reach them (for example, employees of corporations in connection with scheduled offences). "All employees" overstates the Act's extent.

D. WRONG: option (C) is the incorrect statement, so "none of these" cannot be right.

Note: The authority is section 1(2) of the Act: "It extends to the whole of Pakistan and also applies to all citizens of Pakistan and public servants, wherever they may be." The question turns on that exact wording.

Question 87 FIA Act

FIA is constituted under section _____ of the FIA act.

- A. 7
- B. 5
- C. 3 ✓ **Correct answer**
- D. None of these

A. WRONG: section 7 of the Act is not the constitution section (it deals with delegation of powers). The Agency's constitution is elsewhere.

B. WRONG: section 5 is "Powers of the members of the Agency" — it gives members their powers; it does not constitute the Agency.

C. CORRECT: section 3 is headed "Constitution of the Agency" — "the Federal Government may constitute an Agency to be called the Federal Investigation Agency..." The definitions in section 2 confirm it: "Agency means the Federal Investigation Agency constituted under section 3."

option (C) is the section, so "None of these" cannot be right.

Note: FACSIMILE (8 Nov 2026): the printed option set (A) 7 (B) 5 (C) 3 (D) None of these confirmed verbatim from both Drive PDF facsimiles of the printed booklet (booklet Q88; File A 13 pp, File B 12 pp, agreeing). The answer (C) 3 was already VERIFIED from the Act above; the facsimile is a second source for the printed wording. NOTE: this is the facsimile's Q88, NOT the file's Q88 — the file's Q88 ("FIA Act does not contain any provision pertaining to") is a different question, booklet Q89, and stays OPEN (see gap list G6 and the addendum) — SUPERSEDED 8 Nov 2026: Q88 is now VERIFIED (D); see Q88. The facsimile's neighbouring questions Q86 and Q89 (booklet) both use "All of these" as (D) — that was the source of the earlier confusion. Booklet Q88 = file Q87 (see verification summary).

Question 88 FIA Act

FIA Act does not contain any provision pertaining to:

- A. Pakistan Railways Police
- B. Islamabad Capital Territory Police
- C. AJK Police
- D. All of these ✓ **Correct answer**

A. TRUE, but not the answer on its own: no provision of the FIA Act, 1974 names the Pakistan Railways Police — but the same is true of (B) and (C), so no single force is the answer.

B. TRUE, but not the answer on its own: no provision names the Islamabad Capital Territory Police — but the same is true of (A) and (C).

C. TRUE, but not the answer on its own: no provision names the AJK Police — but the same is true of (A) and (B).

D. CORRECT: the full FIA Act, 1974 text (ss. 1–10 and the Schedule) was checked in two independent sources — it contains no provision pertaining to any of the three forces. The

nly Provincial Police", the Pakistan Special Police Establishment, and the Inspector-General of Police; the words "Railway", "Islamabad" and "Azad"/"AJK" do not appear as forces (re-checked 8 Nov 2026). Since all three are unprovided for, "All of these" is the answer — by derivation from the Act, not by key-trust.

Note: REPRODUCTION NOTE: the primary Scribd reproduction prints (D) as "None of these" and (A) as "Pakistan Railway Police" (singular). Six other reproductions (Scribd 634882587, McqsPlanet, DocMCQs, ExaMission, Scribd 674438156, Scribd 673231240) print (D) "All of these", and the facsimile read of the printed booklet reports booklet Q89 (file Q88) uses (D) "All of these". The (D) wording below follows the printed booklet; the primary's variant is recorded, not hidden. CAVEAT: the facsimile report did not quote booklet Q89's stem verbatim; the question is identified as booklet Q89 by the verified numbering shift (file Q88 = booklet Q89 — see verification summary). FOLD 8 Nov 2026: decided by assistant under owner's 8 Nov delegation + new verification standard 15:44 (one confirming source is final) — VERIFIED (D); the facsimile read of the printed booklet (two agreeing Drive PDFs) reports booklet Q89 (D) 'All of these', six witnesses agree, and the Act derivation confirms the substance. The primary's (D) 'None of these' variant is recorded above.

Question 89 FIA Act

The term public servant denote:

- A. public servants as defined in section 19 of the Pakistan panel code 1860
- B. public servant as defined in section 20 of the Pakistan panel code 1860
- C. public servant as defined in section 21 of the Pakistan panel code 1860 ✓ **Correct answer**
- D. None of these

A. WRONG: section 19 of the Pakistan Penal Code defines "Judge", not "public servant".

B. WRONG: section 20 of the Pakistan Penal Code defines "Court of Justice", not "public servant".

section 21 of the Pakistan Penal Code, 1860, is the definition section for "public servant" — it lists the classes of persons (including officers of government, judges, and persons in the service of government) who count as public servants. That is the definition the FIA Act's use of the term rests on.

D. WRONG: option (C) is the section, so "none of these" cannot be right.

Note: REPRODUCTION DEFECTS: in the source the third option lost its letter — the "section 21" line appears unlettered, pushing "None of these" up to letter C and leaving D empty; the options are shown here in their printed order with letters restored in sequence. The source also prints "panel code" for "Penal Code" throughout. Both defects are stated, not silently corrected.

Question 90 FIA Act

The applicability of the FIA Act extends to:

- A. Employees of all corporations
- B. Employees of all corporation set up or controlled by Federal as well as provincial Governments
- C. Employees of all corporation set up or controlled by or under the authority of Federal as well as provincial Governments
- D. None of these ✓ **Correct answer**

A. WRONG: far too broad. Section 2(e) includes only an employee of a corporation or body "set up, controlled or administered by [or under the authority of] the Federal Government". Employees of purely private corporations, and of provincial corporations, are not included by this definition.

B. WRONG: it adds "provincial". The Act's definition names the FEDERAL Government only. A corporation set up or controlled by a Provincial Government does not fall within s. 2(e) by virtue of this option's wording.

C. WRONG, although it is the closest option: its federal half copies s. 2(e) ("set up,

administered by or under the authority of the Federal Government"), but it then adds "as well as provincial Governments", which the Act does not say. The added provincial limb makes the whole statement false as a statement of the Act.

D. CORRECT: none of (A)–(C) states the Act's wording. The Act's own extent clause, s. 1(2), is "It extends to the whole of Pakistan and also applies to all citizens of Pakistan and public servants, wherever they may be", and s. 2(e)'s "public servant" includes only federal-government corporation employees. No option states that federal-only position, so "none of these" is the answer.

Note: REPRODUCTION NOTE: the primary source fragments the lettering — option (B)'s tail ("provincial government") falls under a stray "B", option (C) is split across letters "C" and "D", and "none of these" appears unlettered. The option wording above is the McqsPlanet/Scribd clean lettering, which matches the primary's fragments word for word (including the singular "corporation" in (B)/(C) and "set up" without a comma). The shortened B/C paraphrase on DocMCQs ("Employees of Federal Governments" / "Employees of Federal & Provincial Governments") was NOT used. The answer was verified from the Act's text, not from any prep-site key. Folded in 8 Nov 2026 from `37i-addendum-2026-10-31.md` (addendum Status: VERIFIED, 31 Oct 2026, second completion pass).

Question 91 FIA Act

The Pakistan special police establishment came into existence in:

- A. 1947
- B. 1948 ✓ **Correct answer**
- C. 1962
- D. None of these

A. WRONG: 1947 is the year of independence. The Pakistan Special Police Establishment was created the following year, not in 1947 itself.

B. CORRECT: the Pakistan Special Police Establishment (PSPE) was created in 1948 — the FIA's own history lists it as the preceding agency. "Pakistan Special Police Establishment

FIA Act, 1974, later replaced it, bringing the FIA into existence in 1975.

C. WRONG: 1962 is not the PSPE's creation year. Do not confuse it with the earlier British-era body: a federally controlled police establishment first came into existence in 1942, during the Second World War, as the Special Police Establishment in Delhi — the PAKISTAN body dates to 1948.

D. WRONG: option (B) is the year, so "none of these" cannot be right.

Question 92 FIA Act

The director general of federal investigation agency is appointed by:

- A. Federal cabinet
- B. Prime Minister
- C. federal government ✓ **Correct answer**
- D. None of these

A. WRONG: the Act does not name the Federal Cabinet as the appointing authority.

B. WRONG as a statement of the Act: the reproduction's note says the Prime Minister appoints, but section 3(2) of the Act says the Director-General is "to be appointed by the Federal Government". In practice the Prime Minister, as chief executive, acts for the Federal Government — but the authority the Act names, and the answer the question tests, is the Federal Government.

C. CORRECT: section 3(2) — "The Agency shall consist of a Director General to be appointed by the Federal Government and such number of other officers as the Federal Government may, from time to time, appoint to be members of the Agency."

D. WRONG: option (C) is the authority, so "none of these" cannot be right.

Note: FLAG — the reproduction prints a note under this question: "The FIA is headed by the appointed Director-General who is appointed by the Prime Minister, and confirmed by the President." That note CONTRADICTS the Act's text. The Act controls the answer, and

uoted here so the contradiction is visible, not hidden.

Question 93 FIA Act

The superintendents of the federal investigation agency vests in:

- A. Prime Minister
- B. Ministry of Interior
- C. federal cabinet
- D. None of these ✓ **Correct answer**

A. WRONG: the Act does not vest superintendence in the Prime Minister personally.

B. WRONG: the FIA works under the administrative control of the Interior Division in practice, but the Act vests superintendence elsewhere — not in the Ministry as such.

C. WRONG: the Federal Cabinet is not the body the Act names. The Cabinet is part of the government, but the Act uses a different term.

D. CORRECT: section 4(1) of the Act — "The superintendence of the Agency shall vest in the Federal Government." The Federal Government is not among options (A)–(C), so "none of these" is the answer. (Section 4(2) separately vests the ADMINISTRATION of the Agency in the Director-General.)

Question 94 FIA Act

Section _____ of the federal investigation agency act contained the powers of the members of the agency:

- A. 3
- B. 5 ✓ **Correct answer**
- C. 7
- D. None of these

A. WRONG: section 3 is "Constitution of the Agency" — it creates the Agency; it does not

members' powers.

B. CORRECT: section 5 is headed "Powers of the members of the Agency" — it gives members, throughout Pakistan, the powers of provincial police officers for inquiry and investigation, including search, arrest and seizure, and the powers of an officer-in-charge of a police station for members not below the rank of Sub-Inspector.

C. WRONG: section 7 is not the powers section.

D. WRONG: option (B) is the section, so "none of these" cannot be right.

Question 95 FIA Act

Power off arrest without warrant has been entrusted to _____ under the FIA Act:

- A. Cosntable
- B. ASI
- C. SI ✓ **Correct answer**
- D. All of these

A. WRONG: a constable is below the rank the Act empowers. The arrest-without-warrant power is not entrusted to constables.

B. WRONG: an Assistant Sub-Inspector is also below the rank the Act empowers. ASI is one rank below Sub-Inspector.

C. CORRECT: under section 5, a member of the Agency NOT BELOW THE RANK OF SUB-INSPECTOR, authorised by the Director-General, may arrest without warrant for the purposes of an inquiry or investigation. Sub-Inspector is the lowest rank the Act empowers — so among the ranks listed, SI is the answer.

D. WRONG: the power does not extend to all ranks — constables and ASIs are excluded by the "not below Sub-Inspector" floor.

Note: REPRODUCTION DEFECT: the stem prints "Power off arrest" for "Power of arrest";

Question 96 FIA Act

An arrest under the FIA act can be made:

- A. after Commission of an offense
- B. on reasonable suspicion of Commission of an offence
- C. both A and B ✓ **Correct answer**
- D. None of these

A. TRUE, but incomplete: a person who has committed an offence can of course be arrested. On its own it misses the second lawful basis.

B. TRUE, but incomplete: arrest without warrant on reasonable suspicion (or credible information) that an offence has been committed is the standard police power the FIA's members share. On its own it misses the first basis.

C. CORRECT: both are lawful bases for arrest under the FIA Act's framework (section 5 powers, exercised as provincial police powers under the Code of Criminal Procedure) — after an offence is committed, and on reasonable suspicion that one has been committed.

D. WRONG: options (A) and (B) are both true bases, so "none of these" cannot be right.

Question 97 FIA Act

The director general of the agency exercise power like:

- A. director general of intelligence Bureau
- B. Inspector General of Pakistan railway police
- C. Inspector General of police ✓ **Correct answer**
- D. None of these

A. WRONG: the Intelligence Bureau is a different agency with a different mandate. The Act does not measure the DG's powers against the DG IB.

he Railway Police is a separate force. The Act does not measure the DG's powers against its IG.

C. CORRECT: section 4(2) of the Act — the administration of the Agency vests in the Director-General, who "shall exercise in respect of the Agency such of the powers of an Inspector General of Police under the Police Act, 1861 (V of 1861), as may be prescribed by rules."

D. WRONG: option (C) is the office, so "none of these" cannot be right.

Question 98 FIA Act

A person arrested under the FIA act may be detained as:

- A. police station set-up by police
- B. any place declared as police station
- C. both A and B ✓ **Correct answer**
- D. None of these

A. TRUE, but incomplete: an arrested person may be kept at a police station. On its own it misses the second lawful place of detention.

B. TRUE, but incomplete: a place declared as a police station may equally be used for detention. On its own it misses the first.

C. CORRECT: under the FIA framework a person arrested may be detained at a police station or at any place declared to be a police station — both are lawful places of detention.

D. WRONG: options (A) and (B) are both true, so "none of these" cannot be right.

Note: VERIFIED: section 5(4) of the FIA Act, 1974 — "'Police-station' includes any place declared, generally or specially, by the Federal Government to be a police-station" — re-fetched verbatim from both Act texts, 8 Nov 2026 (Nasir Law + Zuberi Law PDF, updated till 23.02.2023). This closes the re-check this file requested before publication. Decided by

der owner's 8 Nov delegation (new verification standard, 15:44: one confirming source is final).

Question 99 FIA Act

When property under investigation is apprehended to be transferred an order to restrain its transfer be made by:

- A. Federal Government
- B. member of the agency ✓ **Correct answer**
- C. Ministry of Interior
- D. None of these

A. WRONG: the Act gives the Federal Government the big structural powers — constituting the Agency (s. 3), appointing its Director-General, and declaring places to be police stations (s. 5(4)) — but the individual order restraining the transfer of a particular piece of property is not made by the Federal Government. It is made on the spot, in the investigation, by the member handling the case.

B. CORRECT: section 5(5) of the FIA Act, 1974, in both fetched texts — "If a member of the Agency conducting an investigation has reason to believe that any property in relation to which an investigation is being conducted is likely to be removed, transferred or otherwise disposed of before an order of the competent authority for its seizure is obtained, such member may, by order in writing, direct the owner or any person who is, for the time being, in possession thereof not to remove, transfer or otherwise dispose of such property in any manner except with the previous permission of that member." The order is the investigating member's own written order — that is exactly what the question asks, and the option matches the Act's own words ("member of the Agency").

C. WRONG: the Ministry is the administrative home of the Agency, but the Act's restraint-order power sits with the investigating member, not with the Ministry. No provision of the Act gives the Ministry the power to make individual restraint orders in an investigation.

D. WRONG: option (B) is the Act's answer, stated in the Act's own words, so "none of

ot be right.

Note: TEACHING NOTE (from the same section): section 5(6) makes contravention of such an order an offence — rigorous imprisonment up to one year, or a fine, or both. The restraint order is a holding measure: it freezes the property until a proper seizure order can be obtained; it is not itself a seizure. FACSIMILE (8 Nov 2026): the printed wording confirmed verbatim from both Drive PDF facsimiles of the printed booklet (booklet Q100; File A 13 pp, File B 12 pp, agreeing). The answer (B) member of the agency was already VERIFIED from s. 5(5) above; the facsimile is a second source for the printed wording. This is the booklet's 100th question — the file's "one unshown question" (G9) is a different, still-unidentified booklet English question, not this one. NOTE 8 Nov 2026: G9 has since been identified — see Q100; this sentence is retained as history. Booklet Q100 = file Q99 (see verification summary). Folded in 8 Nov 2026 from `37i-addendum-2026-10-31.md` (addendum Status: VERIFIED, 31 Oct 2026).

Question 100 English

Synonym of Emancipate?

- A. Defame
- B. Incorporate
- C. Release ✓ **Correct answer**
- D. None of these

A. WRONG: to defame is to damage someone's reputation by false statements — the opposite direction from emancipate, which frees.

B. WRONG: to incorporate is to include something as part of a whole, or to form a company — nothing to do with setting free.

C. CORRECT: to emancipate is to set free from restraint or bondage; "release" is its direct synonym (free, liberate).

D. WRONG: option (C) is the synonym, so "none of these" cannot be right.

/ERED QUESTION: this is the booklet's one missing English question (G9). The primary Scribd reproduction shows only 99 blocks; the McqsPlanet Batch-1 reproduction lists 20 English items where the file had 19, and "Synonym of Emancipate?" is the only item with no match among the file's 99 blocks (checked 8 Nov 2026 — the word "Emancipate" appears nowhere else in this paper's files). Scribd 634882587 prints the same stem and option set, and Scribd 660658441 keys it "Release". Its exact position within booklet English Q1–Q20 is unknown, so it is filed here as Q100 — this is a filing number, NOT booklet Q100 (booklet Q100 = file Q99, the transfer-restraint question). FOLD 8 Nov 2026: recovered + decided by assistant under owner's 8 Nov delegation — VERIFIED; see the RECOVERED QUESTION note above.

This paper remains the paper of the Federal Public Service Commission. Ranjha Solutions branding is on this solved presentation only — the paper is not owned by Ranjha Solutions. FPSC publishes no past papers officially.

Past papers are **free** — no charge is taken from any student for papers. General Knowledge answers are as of the 2022 sitting (24 July 2022).
