> **How to use this paper:** each question shows the stem, the four options, and the correct answer. Click “Why each option?” under a question to see all four options explained — one question teaches four topics. General Knowledge answers are as of the 2025 sitting.

Source note: pakmcqspoint.com PDF, 'LAT PAST PAPER DATED: 09-11-2025' (all 75 MCQs with four options and a tick-marked key each, in the official section order — English 20, General Knowledge 20, Pakistan Studies 10, Islamic Studies 10, Mathematics 5, Urdu 10 — with no duplicates in numbering; accessed 11 Nov 2026). Second source: HEC announced the LAT for Sunday 9 November 2025 (HEC revised schedule; HEC official Facebook post 6 Nov 2025 confirming the test, with the Quetta sitting postponed for law and order); Barristers Law Academy posted a 'LAT SOLVED PAPER (9 NOV 2025)' carousel the same day, noting five different colour question papers were used; the held lp-2025 partial (40 MCQs of the same sitting, a different colour variant) carries the same essay topics and the same personal statement. The lexacademy 'November 9, 2025' page is NOT this sitting — it is a relabelling of built 37ma (HEC LAT 25 Jan 2026), per the sourcing log. COLOUR-VARIANT CAVEAT: the held lp-2025 partial and this reproduction are different colour variants of the same sitting (only 8 of the held 40 stems match this reproduction; the same templates appear with different values). 3 printed-key corrections and 1 PICK-ONE, all decided by the assistant under the owner's 8 Nov 2026 delegation: Q31 corrected C to B (Arabian Sea, 3.862 million km², larger than the South China Sea's 3.5 million km²); Q52 corrected B to D (Tawheed bil Ruboobiyat — creating, providing and protecting are Allah's actions); Q63 corrected B to A (0 — the stem '[7x - 2] = 2' read as the modulus |7x - 2| = 2;

; Q22 PICK-ONE A (38 filed, 39 also defensible). Dedup: standard screen 8 exact hits (generic bank questions across different papers), 0 first-8-words hits, verdict 'isolated hits only — bank reuse'; format-tolerant fuzzy check (SequenceMatcher >=0.90) against every built LAT paper plus held 37no: 0 pairs vs every live LAT paper except 1 pair vs built 37zk (Q56) and 2 pairs vs held 37no — NOT a duplicate. RECONSTRUCTION CAVEAT (recorded openly): the reproduction is a candidate-recall reconstruction of the 9 November 2025 LAT, not an official HEC paper — HEC does not publish LAT papers after the test. The sitting itself is confirmed (see second source above), the served set follows the official LAT section pattern exactly, and every answer below was checked independently of the printed key. This is the same standing as 37ac (LAT 4 Feb 2024), 37aib, 37ly, 37lz, 37ma and 37nk–37no. All decisions by the assistant under the owner's 8 Nov 2026 delegation.
