GUESS PAPER — predicted questions for the upcoming exam, NOT a past paper. Every question below is a prediction: it is here because the same question, the same fact, or the same topic appeared in verified PPSC Sub-Inspector past papers (2017–2025). **No pass guarantee.** A guess paper raises the odds; it does not promise a result. Answers are the best-supported answers, not exam keys.

Flag — Computer and English shares: the Computer share in this draft (19 of 100) is pulled up by 37ru (37 Computer) and the English share (18 of 100) by 37aj (40 English); 37ur carries no Computer and 37mi only 4 English. The real Sub Inspector paper may weight Computer and English differently than this draft.

> **How to use this paper:** study the basis under each question, not just the answer — the real paper will ask the same topics in different words. Revise the underlying topic, not only the four options. Do not quote any item as "asked in the 2026 exam" — nothing here has been asked yet.
