Two questions have the correct answer as the book's fifth option and are filed with all five options (Q6 ASEAN, Q88 Inadequately, Scarcity — both E); one letter is corrected from mcq-ai to the book (Q71 Kin: mcq-ai C is the book's (d), so D is filed). 4 DEFECTIVE-excluded (Q9 Accommodation letter unrecoverable from the scan; Q10 operator question whose value 155 is not among the options; Q42 Secret with no correct option; Q55 Necessary letter unrecoverable from the scan); 3 GAPs (Q98 options incomplete in the scan; Q99–Q100 lost with the scan's missing final page), all decided by the assistant under the owner's 8 Nov 2026 delegation.
