Source note: test360.pk reproduction, 'Model Paper FPSC Custom Inspector BPS-16 Batch-3 2018' (101 stems, each with 4 options; printed key on 98 of 101 — Q15, Q41, Q100 carry no printed key; raw quiz-POST recovery). IDENTITY CAVEAT: this file is test360's 101-question model-paper compilation (testid 1350), NOT the verbatim 10 September 2018 exam paper — zero of its 101 stems occur in the sibling Batch-3 compilation 37bi (testid 1345, 98 questions) or in any other built Customs Inspector paper. Dated 'current' items are judged as at 10 September 2018 (37bi precedent). Printed keys corrected openly where wrong; 4 PICK-ONE + 1 SINGLE-SOURCE asserted under the owner's 8 Nov 2026 delegation; 14 DEFECTIVE-excluded (Q7, Q17, Q21, Q32, Q37, Q55, Q62, Q68, Q69, Q70, Q71, Q88, Q92, Q101). Q55 was reclassified at build time from the file's asserted D 'None of these' to DEFECTIVE-excluded: the filed option D is 'Mr Abdullah', not 'None of these', and the 2018 ambassador (Ali Jehangir Siddiqui) is in no option, so the item has no correct

precedent). Answers verified independently against reference facts, worked derivations and targeted sources, never from the printed key alone. Paper ID carries the testid 1350 to distinguish this compilation from 37bi's batch-3 paper (paper_id fpsc-custom-inspector-batch-3-2018).
