Assistant Director (Investigation), Federal Investigation Agency (FIA), Batch 1 (BS-17) — 2019 · Solved Past Paper

Body: Federal Public Service Commission (FPSC) · **Post:** Assistant Director (Investigation), Federal Investigation Agency (FIA), Batch 1 (BS-17) · **Year:** 2019 · **Questions:** 98 in the original paper — **96 solved and verified**, 2 excluded as defective (Q28, Q87) · **Price:** Free

> **How to use this paper:** each question shows the stem, the four options, and the correct answer. Click “Why each option?” under a question to see all four options explained — one question teaches four topics. General Knowledge answers are as of the 2019 sitting.

Source note: test360.pk reproduction, 'Model Paper FPSC Assistant Director FIA BPS-17 2019 Batch 1' (test 1340; states 98 total). The page's text-fetch view shows only 9 stems; the raw page HTML (fetched by curl 13 Nov 2026) serves all 98 stems with 4 options each and a printed key on 84 of them — the 14 questions with no marked key (Q21, Q22, Q27, Q33, Q34, Q40, Q49, Q51, Q65, Q67, Q68, Q73, Q84, Q88) were solved independently. Second source (corroboration only): mcq-ai.com paper 'FPSC Assistant Director FIA 12-01-2019' (68 remembered questions, options rewritten by mcq-ai) — same paper, used to corroborate answers and to establish the 12 Jan 2019 date; its options were never filed. FIA Act, 1974 text re-fetched verbatim 13 Nov 2026. 9 printed keys corrected openly (Q5, Q17, Q25, Q71, Q79, Q80, Q94, Q96, Q98), 4 PICK-ONE (Q8, Q15, Q19, Q40) and 2 DEFECTIVE-excluded (Q28, Q87), all decided by the assistant under the owner's 8 Nov 2026 delegation. This file MERGES the held 37de partial (9 questions solved 8 Nov 2026, kept byte-identical) with the 89 recovered stems — the fresh letter 37afr was NOT used, per the claim-collision rule. Dedup 13 Nov 2026 vs all 802 built paper files (exact + first-8-words + format-tolerant fuzzy) and the live index (592 papers): 12 exact + 2 first-8-words single-

tches, all standard items reused across sittings — no duplicate paper.

Question 1 English (Voice)

He made us work.

- A. We are made to work
- B. We are said to make work
- C. We were made to work ✓ **Correct answer**
- D. None of above

A. Wrong tense: "are made" is present, but the active sentence "He made us work" is past.

B. Nonsense: "said to make" changes the meaning entirely and is not a passive of "made us work".

C. Correct: "make + object + bare infinitive" in the active becomes "be made + to-infinitive" in the passive, so "He made us work" becomes "We were made to work (by him)".

D. Wrong, because C is correct.

Question 2 English (Voice)

We painted it.

- A. By whom it was painted by
- B. Whome was it painted by ✓ **Correct answer**
- C. It had painted by whome
- D. None of above

A. Ungrammatical: "by" appears twice, and the word order is that of a statement, not a question.

B. Correct in structure: the passive question form of "We painted it" is "By whom was it painted?" / "Whom was it painted by?", and B is the only option attempting that form. NOTE: "Whome" is a misprint for "Whom" on the source page (the same misprint appears

C. Ungrammatical: "had painted" is active past perfect, not a passive, and "by whome" dangles.

D. Wrong, because B is the intended answer.

Question 3 English

We must write to home

- A. He must be written to ✓ **Correct answer**
- B. He is asked you write
- C. To write him is asked
- D. None of above

A. Correct: "We must write to him" becomes "He must be written to" in the passive — the object "him" becomes the subject and "must write" becomes "must be written". NOTE: the page prints the stem as "We must write to home" — read as "to him"; the options only make sense with "him".

B. Nonsense: "He is asked you write" is ungrammatical and does not passivise "must write".

C. Ungrammatical: "To write him is asked" is not a passive of the sentence and no one "is asked" anything here.

D. Wrong, because A is correct.

Question 4 English

Tick the correct indirect He says, I shall be here

- A. He say shall be them
- B. He says that he will be there ✓ **Correct answer**
- C. He says he shall be there

A. Wrong: "He say" is ungrammatical (third person needs "says"), and "shall be them" makes no sense.

B. Correct: with the reporting verb "says" in the present, the reported "I shall be here" becomes "he will be there" — first person "I" becomes "he", "shall" becomes "will", and "here" becomes "there".

C. Wrong: "shall" stays "shall" only when the subject stays first person; with "he" it must become "will".

D. Wrong, because B is correct.

Question 5 English

The old lady almost encountered but to everyone's surprise she pulled through

- A. Death ✓ **Correct answer**
- B. Dead
- C. Being dead
- D. None of these

A. Correct: the verb "encountered" needs a noun object, and the noun is "death" — "she almost encountered death"; she survived, so she "pulled through".

B. The printed key, but WRONG: "dead" is an adjective, not a noun, so "encountered dead" is ungrammatical — you encounter death, not "dead".

C. Wrong: "being dead" is a participle phrase, not the noun the verb "encountered" needs.

D. Wrong, because A is correct.

Question 6 English

Benefitted a great deal ____ talking that online training course

- B. From ✓ **Correct answer**
- C. With
- D. None of these

A. Wrong: "benefited for taking" is not the idiom; "for" gives a purpose, not the source of the benefit.

B. Correct: "benefit from" is the idiom — she benefited from taking the course.

C. Wrong: "benefited with taking" is not idiomatic English.

D. Wrong, because B is correct.

Question 7 English

His_____ were rejected on the_____ of the advance and whiteness.

- A. hypothesis - basis ✓ **Correct answer**
- B. hypothesis - bascs
- C. Hypothesis bases
- D. None of the above

A. Correct: "his hypothesis was rejected on the basis of..." — a hypothesis is a proposed explanation, and a rejection rests "on the basis of" the evidence. NOTE: the stem is garbled on the page ("on the_____ of the advance and whiteness" — read as "on the basis of the evidence and witnesses"); the option pair A/B differs only in "basis" vs the misprint "bascs", so A is the intended answer.

B. Wrong: "bascs" is a misprint of "basis"; as printed it is not a word.

C. Wrong: "Hypothesis bases" is not a phrase — the rejection needs "on the basis of", not "bases".

D. Wrong, because A is correct.

8 English

_____ going to the chilly weather tomorrow as confirmed in the _____ Department's report

- A. Its- Met
- B. Its- Met ✓ **Correct answer**
- C. It is - Met
- D. None of these

A. Printed identically to B on the source page ("Its- Met"), so as reproduced it cannot be distinguished from B.

B. Taken on the printed key: the sentence is "___ going to be chilly weather tomorrow as confirmed in the Met Department's report", and the original B almost certainly read "It's – Met" — the contraction "it's" (apostrophe lost in transcription) with "Met" for the Meteorological Department — the only grammatical reading. "Its" (possessive) cannot begin this sentence.

C. Wrong as printed: "It is - Met" looks grammatical, but the printed key marks B, and the A/B duplication shows the transcription lost the apostrophe that distinguished B ("It's") from A ("Its").

D. Wrong, because B is the intended answer.

Question 9 English

Medieval Kingdoms did not become republic overnight on the country the change was ____

- A. rapid
- B. unexpected
- C. gradual ✓ **Correct answer**
- D. None of these

A. Wrong: "rapid" contradicts "did not become republics overnight" — a rapid change is

the sentence denies.

B. Wrong: "unexpected" is about surprise, not speed; the sentence contrasts overnight change with change over time.

C. Correct: medieval kingdoms became republics gradually, over a long time — the opposite of overnight. NOTE: the page prints "on the country" for "on the contrary".

D. Wrong, because C is correct.

Question 10 English

I cannot____ further information about the case the investigation officer said to the reporters or it will jeopardize the investigation"

- A. divulge ✓ **Correct answer**
- B. discuss
- C. determine
- D. None of these

A. Correct: "divulge" means to reveal secret information — exactly what the officer refuses to do.

B. Wrong: "discuss" means to talk about; the officer will not reveal the information at all, not merely discuss it.

C. Wrong: "determine" means to decide or find out; the information is already known to the officer, who will not reveal it.

D. Wrong, because A is correct.

Question 11 English

The factory was in a conditions and needed restoration work before anything could be initiated

pidated ✓ Correct answer

- B. inundated
- C. depreciated
- D. None of these

A. Correct: "dilapidated" means fallen into disrepair — a factory in that condition needs restoration before anything can start.

B. Wrong: "inundated" means flooded; nothing in the sentence suggests water.

C. Wrong: "depreciated" means fallen in value; a building's value is not what needs restoration work.

D. Wrong, because A is correct.

Question 12 English

He had heard the story many times and as many times

- A. has felt such melancholy that he thought his eyes will water
- B. had felt such melancholy that he thinks his eyes would water
- C. had felt such melancholy that the thought his eyes would water ✓ **Correct answer**
- D. None of these

A. Wrong: "has felt" (present perfect) clashes with "will water" (future) in the same past-tense narrative — the tenses do not agree.

B. Wrong: "had felt" (past perfect) cannot pair with "he thinks" (present) and "would water" (conditional) in one sequence.

C. Correct: "had felt such melancholy that he thought his eyes would water" — past perfect followed by past tense throughout. NOTE: the page prints "the thought" for "he thought" — a typing slip only.

ecause C is correct.

Question 13 English

They spent the evening ____ through forty years of accumulated junk

- A. sifting ✓ **Correct answer**
- B. sulking
- C. screening
- D. None of these

A. Correct: "sifting through" junk means sorting through it carefully, looking for what matters — exactly what the sentence describes.

B. Wrong: "sulking" means being silently resentful; it does not describe going through junk.

C. Wrong: "screening" means checking or testing (people, calls, films); "sifting" is the word for going through a pile of things.

D. Wrong, because A is correct.

Question 14 English

" When you argue with friend, you don't go home and destroy every object that the ever touched _____?

- A. do you ✓ **Correct answer**
- B. don't you
- C. would you
- D. None of these

A. Correct: the statement is negative ("you don't go home and destroy..."), so the question tag is positive — "do you?". NOTE: the page prints "that the ever touched" for "that he ever touched".

negative tag ("don't you?") follows a positive statement, but this statement is negative.

C. Wrong: "would you" does not match the present-tense "don't" of the statement.

D. Wrong, because A is correct.

Question 15 English

On receiving the _____ president constituted an_____, A three - member committee record the statements of both complainant and accused, and submit their findings

- A. complain - inquiry
- B. complaint - inquiry ✓ **Correct answer**
- C. complaint - enquiry
- D. None of these

A. The printed key, but WRONG: "complain" is a verb; the blank after "On receiving the" needs the noun "complaint".

B. Taken: "On receiving the complaint, the president constituted an inquiry" — "complaint" is the noun, and "inquiry" is the spelling the FIA Act itself uses for a formal investigation (the Act is about "inquiry into... offences").

C. Also defensible English: "enquiry" is an accepted variant spelling of "inquiry" (British usage). B is preferred because the paper's own law section, and the FIA Act, spell it "inquiry".

D. Wrong, because B is the intended answer.

Question 16 English

The jury members _____ for almost an hour before signing the verdict

- A. deliberated ✓ **Correct answer**
- B. deferred

- D. None of these

A. Correct: "deliberated" means discussed and considered carefully before deciding — exactly what a jury does before signing a verdict.

B. Wrong: "deferred" means postponed; the jury did not postpone, it considered the verdict.

C. Wrong: "adjourned" means suspended the session; the jury stayed and decided.

D. Wrong, because A is correct.

Question 17 English (Subject–verb agreement)

Which of the following is correct?

- A. Majority of the speakers is in favour of the motion
- B. Majority of the speakers are in favour of the motion ✓ **Correct answer**
- C. Majority of the speakers were in favour of the motion
- D. None of these

A. The printed key, but WRONG: "majority of" followed by a plural noun takes a plural verb, because the verb agrees with the plural individuals named in the of-phrase ("the speakers"). Standard references agree — "The majority of the students are hard workers", and "The majority of the students was absent" is marked incorrect.

B. Correct: plural "speakers" takes plural "are". (The singular "the majority is..." is correct only when "majority" stands alone as a single unit, without a plural of-phrase.)

C. Wrong tense: "were" is past, but the motion is before the house now, so the present "are" is needed.

D. Wrong, because B is correct.

18 English

Which of the following is not synonym of investigate

- A. Examine
- B. Scrutinize
- C. Elucidate ✓ **Correct answer**
- D. None of above

A. Wrong: "examine" means to inspect closely — a synonym of investigate.

B. Wrong: "scrutinize" means to examine in detail — a synonym of investigate.

C. Correct: "elucidate" means to explain or clarify — it is about making something clear, not about investigating it, so it is NOT a synonym of investigate.

D. Wrong, because C is correct.

Question 19 English (Correct sentence)

Which of the following is correct?

- A. The cause and effect relationship remains the focus of scientific investigation ✓ **Correct answer**
- B. The cause and effect relationship remains the focus of scientific investigation
- C. The cause and affect relationships remain the focus of scientific investigation
- D. None of these

A. Correct: the singular subject "relationship" takes the singular verb "remains", and "effect" (a result) is the right noun — "affect" is a verb.

B. Printed identically to A on the source page, so as reproduced it is also "correct" and the letter cannot be derived from the options alone. PICK-ONE decision: A is taken, because the printed key marks A and the grammar confirms A; the original B almost certainly read "...relationship remain..." (singular subject with a plural verb — the classic distractor for this item), the distinction having been lost in transcription.

ffect" is a verb, not the noun needed here ("effect"), so the sentence is incorrect even though "relationships remain" agrees in number.

D. Wrong, because A is correct.

Question 20 English

Which word is opposite to ' Offebd'?

- A. Confront
- B. Inflict
- C. Acclaim ✓ **Correct answer**
- D. None of these

A. Wrong: "confront" means to face or challenge — not the opposite of the printed word.

B. Wrong: "inflict" means to impose something unpleasant — close in spirit to offending, not its opposite.

C. Correct: the printed word is "Offebd" — read as "Offend" (letters transposed in transcription). To offend is to insult or displease; its opposite is to praise or honour — "acclaim".

D. Wrong, because C is correct.

Question 21 Basic Arithmetic

If z-a is a factor of polynomial P(z),then (a) is always:

- A. z
- B. 0 ✓ **Correct answer**
- C. a
- D. None of these

A. Wrong: the factor theorem is about the value of the polynomial at a, not about the variable z itself.

y the factor theorem, (z − a) is a factor of P(z) if and only if P(a) = 0. NOTE: the stem as printed ("then (a) is always:") is truncated — read as "then P(a) is always:"; the second source (mcq-ai, same paper) prints the full stem and also answers 0.

C. Wrong: P(a) equals 0, not a.

D. Wrong, because B is correct.

Question 22 Basic Arithmetic

Imaginary Part of the multiplicative inverse of a number 6-5i is

- A. 5/61 ✓ **Correct answer**
- B. 6/61
- C. -5/61
- D. None of these

A. Correct by worked derivation: 1/(6 − 5i) = (6 + 5i)/((6 − 5i)(6 + 5i)) = (6 + 5i)/(36 + 25) = 6/61 + (5/61)i, so the imaginary part is 5/61.

B. Wrong: 6/61 is the REAL part of the inverse, not the imaginary part.

C. Wrong: −5/61 has the wrong sign — rationalising flips the sign of the imaginary term to +5/61.

D. Wrong, because A is correct.

Question 23 Basic Arithmetic

Let A= [aij] be n square matrix If a2j=0 for all j 1, 2, 3,____ n, then the matrix A is

- A. Regular
- B. Diagonal
- C. Singular ✓ **Correct answer**
- D. None of these

regular matrix is one with a non-zero determinant — the opposite of what is described.

B. Wrong: a diagonal matrix has zeros off the diagonal, not a whole zero row.

C. Correct: if a whole row (here the second row) is zero, the determinant is 0, so the matrix is singular.

D. Wrong, because C is correct.

Question 24 Basic Arithmetic

The centroid of a triangle LMN with vertices L(1, 1, 1), M(3, 3, 3), N(5, 5, 5) is the point

- A. (3, 3, 3) ✓ **Correct answer**
- B. (2, 2, 2)
- C. (2.5, 2.5, 2.5)
- D. None of these

A. Correct by worked derivation: the centroid is the average of the three vertices, ((1 + 3 + 5) / 3, (1 + 3 + 5) / 3, (1 + 3 + 5) / 3) = (9 / 3, 9 / 3, 9 / 3) = (3, 3, 3). NOTE: the page prints "Wangla" where "triangle" belongs — a reproduction garble; the figure is a triangle with the given vertices.

B. Wrong for this paper: (2, 2, 2) is the centroid of the vertices (1, 1, 1), (2, 2, 2), (3, 3, 3) — the numbers used in the 11 January 2019 batch of this series, not in this batch.

C. Wrong: that is not even the midpoint of L and N ((1 + 5) / 2 = 3), let alone the centroid of all three vertices.

D. Wrong, because A is correct.

Question 25 Basic Arithmetic

The projection of a vector a= i+ j + k on another vector b=3jk +3k:

2 ✓ **Correct answer**

- B. 1/√2
- C. 3/√2
- D. None of these

A. Correct by worked derivation: a·b = (1)(0) + (1)(3) + (1)(3) = 6, and |b| = √(0 + 9 + 9) = 3√2, so the scalar projection is a·b/|b| = 6/(3√2) = 2/√2. (The vector projection itself is j + k, whose magnitude is √2 = 2/√2 — confirmed by the second source, mcq-ai, same paper.)

B. Wrong: 1/√2 is half the scalar projection.

C. The printed key, but WRONG: 3/√2 does not follow from a·b = 6 and |b| = 3√2 — the quotient is 2/√2.

D. Wrong, because A is correct.

Question 26 Basic Arithmetic

The work done by a force F=i + j + k in moving an object from a point p (1, 1, 1) to the point Q (1, 2, 2) is

- A. 1
- B. 2 ✓ **Correct answer**
- C. 0
- D. None of these

A. Wrong: 1 is the dot product of F with only one component of the displacement, not the whole displacement.

B. Correct by worked derivation: the displacement is Q − P = (0, 1, 1), so the work is F·d = (1)(0) + (1)(1) + (1)(1) = 2.

C. Wrong: the work is 2, not 0 — the force has components along the displacement.

D. Wrong, because B is correct.

27 Basic Arithmetic

The population of a city increases by 700 each year. If the population grows to 25000 in five years, its initial populations was

- A. 21000
- B. 21500 ✓ **Correct answer**
- C. 22000
- D. None of these

A. Wrong: 21,000 would leave only 4,000 growth over five years at 700 a year — the paper says the city reaches 25,000.

B. Correct by worked derivation: five years at 700 a year is 3,500 growth, so the initial population was 25,000 − 3,500 = 21,500.

C. Wrong: 22,000 would give only 3,000 growth in five years, not 3,500.

D. Wrong, because B is correct.

Question 28 Basic Arithmetic

The sum of the first seventy positive even integers is:

- A. 4910
- B. 4929
- C. 4900
- D. None of these

No answer is given for this question, and none is taught. No correct option — DEFECTIVE-excluded (decided by assistant under owner's 8 Nov delegation; no correct option — the sum of the first 70 positive even integers is 70 × 71 = 4,970, which is not among the options; the printed key C (4,900) is the sum of the first 70 ODD integers (70^2), not the even ones)

A. Wrong: 4,910 is not the sum of the first 70 even integers.

929 is not the sum of the first 70 even integers.

C. The printed key, but WRONG: 4,900 = 70^2 is the sum of the first 70 ODD integers (1 + 3 + … + 139). The even sum is 2 + 4 + … + 140 = 2(1 + … + 70) = 70 × 71 = 4,970 — confirmed by the second source (mcq-ai, same paper, which answers 4,970 for this stem). 4,970 is not among the options, so no letter can be taught as the answer.

D. Wrong as an answer: "None of these" would be right only if the question asked for it, but the printed key marks C — the option set as keyed is defective.

Question 29 Basic Arithmetic

The infinite sum 2+2/5+2/25+2/125+-----to is:

- A. 5/3
- B. 5/2 ✓ **Correct answer**
- C. 5/4
- D. None of these

A. Wrong: 5/3 would be the sum for a ratio of 2/5, not 1/5.

B. Correct by worked derivation: a geometric series with a = 2 and r = 1/5 sums to a/(1 − r) = 2/(4/5) = 5/2.

C. Wrong: 5/4 is the sum for a = 1, not a = 2.

D. Wrong, because B is correct.

Question 30 Basic Arithmetic

A man has 6 coats, 3 shirts and 5 trousers. In how many ways can he dress himself with coat, shirt and trouser?

- A. 90 ✓ **Correct answer**
- B. 80
- C. 70

ne of these

A. Correct by worked derivation: 6 coats × 3 shirts × 5 trousers = 90 combinations.

B. Wrong: 80 is not 6 × 3 × 5.

C. Wrong: 70 is not 6 × 3 × 5.

D. Wrong, because A is correct.

Question 31 Basic Arithmetic

How many diagonals can be drawn in a figure of 5 sides?

- A. 3
- B. 4
- C. 5 ✓ **Correct answer**
- D. None of these

A. Wrong: a triangle (3 sides) has 0 diagonals; a pentagon has more than 3.

B. Wrong: 4 is the number of diagonals of a quadrilateral plus one — not the pentagon count.

C. Correct: a 5-sided figure has $n(n-3)/2 = 5 \times 2/2 = 5$ diagonals.

D. Wrong, because C is correct.

Question 32 Basic Arithmetic

A ball is selected at random from a box. If the box has 9 white, 8 Green and 3 Orange balls, the probability that the the balls is not Orange is:

- A. 12/20
- B. 17/20 ✓ **Correct answer**
- C. 11/20
- D. None of these

B. Correct by worked derivation: 9 white + 8 green = 17 non-orange balls out of 20, so the probability is 17/20.

C. Wrong: 11/20 is not (9 + 8)/20.

D. Wrong, because B is correct.

Question 33 Basic Arithmetic

A ball is drawn at random from a box containing 70 white and 30 Red balls. The probability that the ball is either. White or Red is:

- A. 1/2
- B. 0
- C. 1 ✓ **Correct answer**
- D. None of these

A. Wrong: the probability is not 1/2 — every ball in the box is either white or red.

B. Wrong: the probability is not 0 — every draw gives a white or a red ball.

C. Correct: the box contains only white and red balls (70 + 30 = 100), so a drawn ball is certainly white or red — probability 1.

D. Wrong, because C is correct.

Question 34 Basic Arithmetic

In a triangle with side= 60, = 40,c = 38, the largest angle of measure is the angle opposite to the side:

- A. a ✓ **Correct answer**
- B. b
- C. c

ne of these

A. Correct: the largest angle is opposite the largest side, and side a = 60 is the largest of 60, 40 and 38. NOTE: the stem prints "side= 60, = 40, c = 38" — read as a = 60, b = 40, c = 38.

B. Wrong: side b = 40 is the middle side, so its opposite angle is the middle angle.

C. Wrong: side c = 38 is the smallest side, so its opposite angle is the smallest.

D. Wrong, because A is correct.

Question 35 Pakistan Affairs

When was Indus water treaty signed between India and Pakistan?

- A. 1948
- B. 1960 ✓ **Correct answer**
- C. 1970
- D. None of these

A. Wrong: 1948 is the year of the first Indo-Pak war, not the Indus Waters Treaty.

B. Correct: the Indus Waters Treaty was signed between India and Pakistan in 1960, brokered by the World Bank.

C. Wrong: 1970 is a decade after the treaty.

D. Wrong, because B is correct.

Question 36 Current Affairs

Who is current Chinese prime Minister?

- A. When kia Bao
- B. Li keqiang ✓ **Correct answer**
- C. Li peng

A. Wrong: Wen Jiabao (printed "When kia Bao") was premier until 2013, not in January 2019.

B. Correct: Li Keqiang was the Premier of China from 2013 to 2023, so he held the office in January 2019.

C. Wrong: Li Peng was premier from 1987 to 1998.

D. Wrong, because B is correct.

Question 37 Current Affairs

Donald Trump is the ____ president of America

- A. 43rd
- B. 44th
- C. 45th ✓ **Correct answer**
- D. None of these

A. Wrong: the 43rd President was George W. Bush.

B. Wrong: the 44th President was Barack Obama.

C. Correct: Donald Trump was the 45th President of the United States (2017–2021).

D. Wrong, because C is correct.

Question 38 Current Affairs

When did Ashraf Ghani became president of Afghanistan?

- A. September 2014 ✓ **Correct answer**
- B. October 2014
- C. December 2014
- D. Man of these

shraf Ghani became President of Afghanistan in September 2014, after the disputed 2014 election.

B. Wrong: he did not take office in October 2014.

C. Wrong: he did not take office in December 2014.

D. Wrong, because A is correct.

Question 39 General Knowledge

World environment Day is observed on

- A. 5th June ✓ **Correct answer**
- B. 10th June
- C. 21st june
- D. None of these

A. Correct: World Environment Day is observed every year on 5 June, led by the United Nations Environment Programme (UNEP) since the first observance in 1973.

B. Wrong: no major UN environment observance falls on 10 June.

C. Wrong: 21 June is the International Day of Yoga (and the summer solstice in the northern hemisphere), not Environment Day.

D. Wrong, because A is correct.

Question 40 Current Affairs

- D. None of these

A. Wrong: more than three planets are visible without a telescope.

B. Wrong: four is one short — Saturn is also visible.

C. Correct: five planets are visible to the naked eye — Mercury, Venus, Mars, Jupiter and Saturn.

D. Wrong, because C is correct.

75 Everyday Science

According to Big Bang theory, the universe began about billiam years ago

- A. 10 -20 ✓ **Correct answer**
- B. 20-30
- C. 30 -40
- D. None of these

A. Correct: the Big Bang theory puts the beginning of the universe about 13.8 billion years ago — inside the 10–20 billion range.

B. Wrong: the universe is not 20–30 billion years old.

C. Wrong: the universe is not 30–40 billion years old.

D. Wrong, because A is correct.

Question 76 Everyday Science

Biosensor is used to measure:

- A. Blood glucose level ✓ **Correct answer**
- B. The body pH value
- C. Amount of hemoglobin
- D. None of these

A. Correct: a biosensor is most commonly used to measure blood glucose level (the glucose meter used by diabetics is a biosensor).

B. Wrong: body pH is measured by a pH meter, not a biosensor.

C. Wrong: haemoglobin is measured by blood tests, not by a biosensor.

D. Wrong, because A is correct.

77 Everyday Science

Einstein's famous equation which states that mass and energy are interchangeable is:

- A. $E= mc^2$ ✓ **Correct answer**
- B. $E= cm^2$
- C. $M= ec^2$
- D. None of these

A. Correct: Einstein's mass–energy equivalence is $E = mc^2$.

B. Wrong: $E = cm^2$ is not the equation.

C. Wrong: $M = ec^2$ is not the equation.

D. Wrong, because A is correct.

Question 78 Everyday Science

The SI unit electric current is

- A. Coulomb
- B. Ampere ✓ **Correct answer**
- C. Volt
- D. None of these

A. Wrong: the Coulomb is the SI unit of electric charge, not current.

B. Correct: the SI unit of electric current is the Ampere.

C. Wrong: the Volt is the SI unit of electric potential, not current.

D. Wrong, because B is correct.

Question 79 Everyday Science

The principal constituent of the atmosphere of the Earth is:

gen

- B. Carbon
- C. Nitrogen ✓ **Correct answer**
- D. None of these

A. Wrong: oxygen is about 21% of dry air — the second-largest constituent, not the principal one.

B. The printed key, but WRONG: carbon (as carbon dioxide) is only about 0.04% of dry air.

C. Correct: dry air is about 78% nitrogen, so nitrogen is the principal constituent of the Earth's atmosphere — confirmed by the second source (mcq-ai, same paper).

D. Wrong, because C is correct.

Question 80 Everyday Science

What is Dry ice?

- A. Solid Oxygen
- B. Solid Carbon Dioxide ✓ **Correct answer**
- C. Solid Hydrogen
- D. None of these

A. The printed key, but WRONG: dry ice is not solid oxygen.

B. Correct: dry ice is solid carbon dioxide, which sublimes directly into gas at about −78.5 °C — confirmed by the second source (mcq-ai, same paper).

C. Wrong: dry ice is not solid hydrogen.

D. Wrong, because B is correct.

Delegation of power has been provided in section _____ of FLA Act

- B. 7- B
- C. 7 ✓ **Correct answer**
- D. None of these

A. The printed key, but WRONG: there is no section 7-A in the FIA Act, 1974 — delegation of powers is section 7.

B. Wrong: there is no section 7-B in the FIA Act.

C. Correct: section 7 of the FIA Act is headed "Delegation of Powers" — the Director-General may, by order in writing, direct that his powers be exercisable also by a member of the Agency.

D. Wrong, because C is correct.

Question 95 FIA Act, 1974

The terms and condition of survice of the Director General FLA.

- A. Can be provided in the Rules ✓ **Correct answer**
- B. Cannot be provided in the Rules
- C. Can we partially provide in the Rules
- D. None of these

A. Correct: section 9(2)(a) of the FIA Act provides that the rules may provide for the terms and conditions of service of the Director-General and other members of the Agency. NOTE: the stem is garbled ("terms and condition of survice") — read as "terms and conditions of service".

B. Wrong: the rules can provide for the Director-General's terms of service.

C. Wrong: the rules can provide for them fully, not only partially.

D. Wrong, because A is correct.

96 FIA Act, 1974

Rewards may be give for commendable services to:

- A. Members of Agency only
- B. Director General only
- C. Members as well as public ✓ **Correct answer**
- D. None of these

A. The printed key, but WRONG: rewards are not limited to members of the Agency only.

B. Wrong: rewards are not limited to the Director-General only.

C. Correct: section 9(2)(e) of the FIA Act provides that the rules may provide for "the manner in which rewards may be given to the members of the Agency or of the public for rendering commendable services" — members as well as the public. Confirmed by the second source (mcq-ai, same paper).

D. Wrong, because C is correct.

- D. None of these

A. Correct: section 10(1) of the FIA Act repeals the Pakistan Special Police Establishment Ordinance, 1948 (and the 1962 Amalgamation Order).

B. Wrong: the Ordinance was repealed by the FIA Act.

C. Wrong: the Ordinance was repealed — it can be and was repealed by the Act.

D. Wrong, because A is correct.

98 FIA Act, 1974

FLA can do investigation with respect to offence punishable under the

- A. Import and Export Act 1950
- B. Baking companias Ordinance 1962
- C. Both a & b ✓ **Correct answer**
- D. None of these

A. Right in itself: offences under the Imports and Exports (Control) Act, 1950 are in the Schedule to the FIA Act (item 7) — but they are not the only scheduled offence here.

B. The printed key, but INCOMPLETE: offences under the Banking Companies Ordinance, 1962 are in the Schedule (item 8) — but so are offences under the Imports and Exports (Control) Act, 1950 (item 7). NOTE: the page prints "Baking companias Ordinance" for "Banking Companies Ordinance".

C. Correct: both the Imports and Exports (Control) Act, 1950 (Schedule item 7) and the Banking Companies Ordinance, 1962 (Schedule item 8) are scheduled laws, so the Agency can investigate offences under both.

D. Wrong, because C is correct.
