## Question 132 Quantitative & Analytical Reasoning

Simplify: 2(x+3) - 3(x-7) + 2(y-2) + 3(y+5)

- A. x+15y+27

5y+27

- C. 8x-16y-27
- D. None of these ✓ **Correct answer**

**Note:** Expanding: 2x+6 - 3x+21 + 2y-4 + 3y+15 = -x + 5y + 38. This does not match any of the three algebraic options given, so D (None of these) is correct. The webapp key records B (-x+15y+27), which is set aside on the arithmetic, decided by the assistant under the owner's 8 Nov 2026 delegation.

## Question 133 Quantitative & Analytical Reasoning

What is the value of x in the equation x/2 − x/3 = 16?

- A. 12
- B. 24
- C. 48
- D. None of these ✓ **Correct answer**

**Note:** (3x-2x)/6 = 16 gives x/6 = 16, so x = 96, which is not among the listed options (12, 24, 48), so D (None of these) is correct.

## Question 134

**No answer is given for this question, and none is taught.** No stem, options or printed key for Q134 appear in any of the sources searched (cssprep 94-question review, CSS MPT Prep 2027, cssmcqs transcription, mcq-ai 161-question recall). - A. 90 ✓ **Correct answer**
- B. 180
- C. 160
- D. None of these

**Note:** Complementary angles add up to 90 degrees, by definition.

## Question 137 Quantitative & Analytical Reasoning

2, 4, 6, 8, 10, 12, ... What is the next number in the series?

- A. 14 ✓ **Correct answer**
- B. 16
- C. 18
- D. None of these

**Note:** This is a simple series of consecutive even numbers; the next term is 14.

## Question 138 Quantitative & Analytical Reasoning

3, 2, 7, 6, 11, 10, ... What is the next number in the series?

- A. 15 ✓ **Correct answer**
- B. 14
- C. 12

ne of these

## Question 139 Quantitative & Analytical Reasoning

1.5, 2.5, 3.5, 4.5, … What is the next number in the series?

- A. 5.5 ✓ **Correct answer**
- B. 6.5
- C. 7.5
- D. None of these

## Question 141 Quantitative & Analytical Reasoning

If CAT is coded as 283, HAT is coded as 383, and ARE is coded as 801, what is the code for BETTER?

- A. 23838

- C. 12330
- D. None of these ✓ **Correct answer**

**Note:** No consistent letter-to-digit coding rule could be reverse-engineered from the three given examples that also cleanly extends to a 6-letter word, so the pattern cannot be confirmed and 'None of these' is the safest choice. In a group of buffaloes and ducks, the number of legs is 24 more than twice the number of heads.

## Question 142 Quantitative & Analytical Reasoning

In a group of buffaloes and ducks, the number of legs are 24 more than twice the number of heads. What is the number of buffaloes in the group?

- A. 12 ✓ **Correct answer**
- B. 10
- C. 8
- D. None of these

**Note:** Let b = buffaloes, d = ducks. 4b+2d = 2(b+d)+24 simplifies to 2b = 24, so b = 12.

## Question 143 Quantitative & Analytical Reasoning

The (curved) surface area of a hollow cylinder with radius 'r' and height 'h' is measured by: (Duplicate of Q82.)

- A. 2πrh ✓ **Correct answer**
- B. πrh
- C. 2πr
- D. None of these

**Note:** Same as Q82: circumference of the base (2πr) multiplied by height (h). A coding-pattern question (source text truncated: "...26, MEET=39, then NUT = ?", apparent duplicate of Q83).

If 26, MEET=39, then NUT is equal to:

- A. 50
- B. 53
- C. 56
- D. None of these ✓ **Correct answer**

**Note:** This is a truncated repeat of Q83 as printed; the full form is 'If Z = 26, NET = 39, then NUT = ?'. NUT = 14+21+20 = 55, which is not among the options, so D (None of these) is correct.

The Indus Waters Treaty between Pakistan and India was mediated by:

- A. IMF
- B. World Bank ✓ **Correct answer**
- C. United States

**Note:** The 1960 Indus Waters Treaty was negotiated and brokered by the World Bank, which remains a signatory guarantor of the treaty. ### NOTED POINTS - **Numbering.** The cssprep and webapp sources number the paper Q1–Q20, Q41–Q50, Q80–Q144, Q161–Q174, Q192–Q200 and agree with each other throughout; their numbering is used as canonical. The cssmcqs transcription numbers its own recovered list sequentially (it omits the Asad-ullah question and the whole comprehension passage, then renumbers), so its English items are filed only at Q53–Q79, where no other source numbers a question. - **Q7** — the phrase "Muhammad is the Messenger of Allah" is the last part of Surah Al-Fath (48:29). The cssmcqs rendering "Surah Al-Fatiha" is a transcription error for Al-Fath; the filed option text follows cssprep/webapp ("Surah Fatah"). - **Q9** — "Asad-ullah" (Lion of Allah) is the title of Hazrat Hamza (RA); the cssmcqs transcription omits this question entirely. - **Q11** — the Ottoman Empire lasted about six centuries (founded c. 1299, dissolved 1922); the cssmcqs option set (Six/Seven/Eight) differs from cssprep/webapp (4/5/6 centuries) but both agree the answer is Six. - **Q13** — Hazrat Haleema (RA) fostered the Prophet for about four years (the commonly cited figure); the cssprep explanation notes some seerah sources give a shorter nursing period of about two years. - **Q16** — see the question: the cssprep/webapp keys record D on a garbled stem; the question is the Jizya question (9 AH), decided by the assistant under the owner's 8 Nov 2026 delegation. - **Q19** — the Prophet stayed with the Banu Najjar clan; the cssmcqs transcription prints "Banu Nuzair", evidently a misprint of Najjar. - **Q51** — no distinct question was recovered for this number: the "Do you ___ go to sleep early" question is Q50 in the cross-checked cssprep/webapp numbering and Q51 in the cssmcqs list; Q51 is carried as a GAP. - **Q144** — a truncated repeat of Q83 as printed; filed as printed with the full form given in the explanation. - **Q118** — option C follows the webapp transcription; the cssprep scan garbles it. Both sources key A (Discover). - **Q194** — the webapp transcription duplicates the correct option B (Maulana Zafar Ali Khan) into option C; the filed option C follows the cssprep scan (Maulvi Sirajuddin Ahmad). The filed answer B is the same in both sources. - **Recovered English items that could not be filed at numbered positions.** The cssmcqs transcription recovers eleven further

s whose original numbers cannot be verified: the cross-checked sources put quantitative/science items at Q80–Q85, and the English section has only three unfilled slots (Q51, Q52, Q62) for eleven items, so at least eight of them cannot belong to this sitting as numbered. They are recorded here in full rather than silently numbered or dropped, decided by the assistant under the owner's 8 Nov 2026 delegation. - **'Woman' fill-in (cssmcqs list Q46)** — ____ Woman that we saw turned out to be our CEO. A. A · B. The · C. That · D. An — Answer: **B — The**. Answer B ('The woman that we saw...'). - **cssmcqs list Q80 — Fastidious** — Fastidious means: A. A person hard to please · B. A person hard to convince · C. A person hard to get angry · D. A person hard to get essential — Answer: **A — A person hard to please**. Answer A. - **cssmcqs list Q81 — correct sentence** — Choose the correct Sentence: A. All that is glitters is not gold · B. All that is glittering is not gold · C. All that glitters is not gold · D.
