Source note: lexacademy.com.pk quiz-view page, 'LAT Past Paper — August 11, 2024' (all 75 MCQs with four options and a marked key each, in the official section pattern — English 20, General Knowledge 20, Pakistan Studies 10, Islamic Studies 10, Urdu 10, Mathematics 5 — with no duplicates in numbering; accessed 9 Nov 2026). NOTE: unlike the 2025 lexacademy pages, this 2024 page serves NO per-question explanations — every explanation below is original. NOTE 2: on this page the Urdu block (Q66–Q75) is displayed before the Mathematics block (Q61–Q65); the questions are written here in numeric order. Second source: the sitting is confirmed independently of the reproduction — HEC held the LAT on 11 August 2024 (ETC result announced 8 September 2024; HEC answer keys issued for the test; the LAT360 contents list the 11 August 2024 paper at 75 MCQs). 3 printed-key corrections stated openly (Q66, Q73, Q74), 2 PICK-ONE (Q5, Q20) and 4 DEFECTIVE-excluded (Q23, Q38, Q60, Q67), all decided by the assistant under the owner's 8 Nov 2026 delegation. RECONSTRUCTION CAVEAT (recorded openly): the reproduction is a candidate-recall reconstruction of the 11 August 2024 LAT, not an official HEC paper — Lexacademy's own book note states plainly that HEC does not publish LAT question papers after the test and every paper has been reconstructed from candidates who sat that session. The sitting itself is confirmed (see second source), the served set follows the official LAT section

every answer below was checked independently of the printed key. This is the same standing as 37ac (LAT 4 Feb 2024), 37ly, 37lz and 37ma. All decisions by the assistant under the owner's 8 Nov 2026 delegation.

- B. Messenger
- C. Prophet
- D. Imam

No answer is given for this question, and none is taught. NO CORRECT OPTION — DEFECTIVE-excluded (the stem's premise is inverted; decided by the assistant under the owner's 8 Nov 2026 delegation)

A. Wrong: completing the sentence as "every Rasool is not a Nabi" states the opposite of the correct doctrine.

B. Wrong: "Messenger" is the English of Rasool, so "every Rasool is not a Messenger" is false.

C. Wrong: "Prophet" is the English of Nabi, so "every Rasool is not a Prophet" is false.

D. Wrong: the doctrine is not about Imams at all. The correct doctrine is the reverse of the stem: every Rasool IS a Nabi, but not every Nabi is a Rasool (a Rasool is a Prophet given a new message). Because the stem itself is theologically wrong, no option can complete it

the item is excluded rather than answered.

- A. 8:30 AM
- B. 8:45 AM ✓ **Correct answer**
- C. 8:55 AM
- D. 8:50 AM

A. Wrong: leaving at 8:30, 15 minutes early, would mean usual 8:45 — but 8:30 is today's early departure, not the usual time.

B. Correct: he left today at 8:40 − 10 min = 8:30, which is 15 minutes earlier than usual, so usual = 8:30 + 15 min = 8:45.

at would make today's departure 8:40, not 8:30.

Question 63 Mathematics

If a car is moving toward a bus at 120 km/h and the bus is moving at 90 km/h, how much time it take the car to overtake the bus in 210 km ?

- A. 7 hours ✓ **Correct answer**
- B. 5 hours
- C. 3 hours
- D. 1 hour

A. Correct: the word "overtake" fixes the reading — the car comes from behind in the same direction, so the closing speed is 120 − 90 = 30 km/h, and 210 ÷ 30 = 7 hours.

B. Wrong: no reading of the numbers gives 5 hours.

C. Wrong: no reading of the numbers gives 3 hours.

D. Wrong on the intended reading, but recorded openly: if the vehicles were moving head-on toward each other, the closing speed would be 120 + 90 = 210 km/h and they would meet in 1 hour — however "overtake" means passing from behind, so the intended answer is 7 hours.
